The Department of Human Services thereafter may adopt this proposal without further notice (see: N.J.A.C. 1:30-3.5). The adoption becomes effective upon publication in the Register of a notice of adoption.

This proposal is known as PRN 1982-85.

The agency proposal follows:

Summary

This proposal supersedes the proposal known as PRN 1981-152, and published in the August 6, 1981 Register at 13 N.J.R. 516(b).

The proposed amendments give child care centers greater flexibility in meeting State licensing regulations by providing additional options by which centers may meet the staff qualification requirements for the positions of head teacher and group teacher.

Under the existing regulations; there are three different options available for meeting the **head teacher** requirements for pre-school, drop-in and night-care programs. The proposed amendments provide additional options for meeting the head teacher requirements for pre-school, drop-in and night-care programs by: (1) allowing for conditional approval of a head teacher candidate under certain conditions, provided that the candidate meets the qualification requirements fully within six months; (2) recognizing the Montessori credential for head teachers in Montessori centers; (3) permitting small centers (six to 15 children) to meet the head teacher requirements by using either a consulting head teacher or a group teacher who is employed full time at the center; and (4) permitting centers with 16 to 60 children to meet the head teacher requirements by using either a consulting head teacher along with a group teacher employed full time or consulting head teacher plus a full time staff member who has at least three years teaching experience with pre-school age children.

Under the existing regulations, there are four options available for meeting the **group teacher** requirements for pre-school, drop-in and night-care programs. The proposed amendments provide an additional alternative for meeting the group teacher requirements for pre-school, drop-in and night-care programs by recognizing the Child Development Associate (CDA) credential.

The amendments also strengthen and clarify the existing regulations by: (1) requiring that centers with 61 children and over utilize a head teacher full time on the premises (at present, centers of any size may utilize a head teacher who is not required to be on the premises at any time); (2) requiring centers serving 60 or fewer children that utilize consulting head teachers on a less than full time basis to ensure that such persons visit and observe the center monthly, review program plans, schedules and curriculum and discuss the program with center staff. Also, the center must keep a record of such visits; (3) requiring that a head teacher be utilized full time for all centers with a special needs program, regardless of the size of the center (currently, such centers may utilize a consultant head teacher who is not required to be on the premises at any time); (4) specifying areas for center staff training and developments; and (5) recommending the use of bilingual staff for bilingual centers. In addition, the amendments include recommendation that centers serving more than 30 children use a qualified group teacher for every 30 children beyond the first 30 children.

Social Impact

The proposed amendments will affect some 1,500 child care centers required to be licensed in accordance with N.J.S.A. 18A:70-1 to 9. However, there is no discernible social impact since the proposed amendments merely clarify and expand the number of options available to child care center staff for meeting the staff qualifications requirements of the existing licensing regulations.

Economic Impact

The Division expects the proposed amendments to minimize the costs to child care centers of complying with the regulations by offering a greater number of and more flexible options for achieving conformity with staff qualification requirements of the licensing regulations.

Full text of the proposal follows (additions indicated in boldface **thus**; deletions indicated in brackets [thus]).

Proposed New Rules: N.J.A.C. 10A:31-5

Authorized By: William H. Fauver, Commissioner,
 Department of Corrections.
 Authority: N.J.S.A. 30:1B-10 and 30:8-57.

Interested persons may submit in writing, data, views or arguments relevant to the proposal on or before March 31, 1982. These submissions, and any inquiries about submissions and responses, should be addressed to:

Louis Scavo, Chief
 Bureau of County Services
 Whittlesey Road, P.O. Box 7387
 Trenton, New Jersey 08628

The Department of Corrections thereafter may adopt this proposal without further notice (see: N.J.A.C. 1:30-3.5). The adoption becomes effective upon publication in the Register of a notice of adoption.

This proposal is known as PRN 1982-84.

The agency proposal follows:

Summary

N.J.A.C. 10A:31 sets forth standards for the operation of county adult correctional facilities. This enforcement procedure will provide a mechanism by which the State can take appropriate administrative and legal action to enforce its standards.

Social Impact

Implementation of these procedures will aid the Department to insure that county correctional facilities implement and maintain the standards contained in Chapter 31 supra.

Economic Impact

The costs incurred will depend on conditions and procedures currently existing in the various county correctional facilities.

Full text of the proposed new rule follows.

SUBCHAPTER 5. ENFORCEMENT PROCEDURES**10A:31-5.1 Violations**

(a) The following enforcement procedures have been developed to expedite the abatement process in all cases where conditions or procedures are discovered in county facilities which are in violation of the rules for New Jersey Adult County Correctional Facilities, and where a county has willfully and continuously failed to initiate corrective action in response to notice:

1. The physical inspection or programmatic evaluation shall be conducted by the Bureau of County Services. A report listing all violations shall then be sent to the Freeholder Director or County Executive with copies to the Sheriff or Chief Administrator of the facility and County Assignment Judge. The report shall contain notice that corrective action must be effected or initiated within 60 days, and a date for reinspection shall be scheduled.

2. A reinspection shall be conducted noting the abatement status of all violations. If additional violations are discovered during the reinspection, a separate addendum will be attached to the original list of violations. A letter indicating the findings of each reinspection shall be sent to all original parties noticed.

3. At any time prior to enforcement of restrictions, the county may request an extension of time to correct the violations. Said request must be in writing and must specify the particular violations which they expect to have difficulty in correcting, the reasons for the difficulty, the nature of corrective action being undertaken, and the date by which correction of violations will be completed. The Commissioner may, in his discretion, after consultation with the Bureau of County Services, grant, modify or deny the request. A date shall be scheduled for final reinspection prior to enforcement action.

4. In the event acceptable corrective action has not been effected or initiated upon final reinspection, notice shall be sent to the county, by certified mail, that:

- i. Effective immediately, the county shall cease to admit persons sentenced to State penal facilities;
- ii. Effective 30 days after receipt of notice, the county shall cease to admit persons sentenced to terms in said county penal facility;
- iii. Effective 90 days after receipt of notice, the county shall cease to accept all persons sent to said facility.

5. The notice of restrictions in (a)4 above shall contain a statement of reasons for imposition of restrictions, based on the number, seriousness and duration of the violations cited, and the willful, continuous disregard of the county in abating the violations.

6. Restrictions imposed on a county pursuant to this section shall continue until such time as the Commissioner shall determine that the violations specified have been corrected or that the facility has initiated actions which will ensure the correction of said violations.

7. During the pendency of restrictions imposed pursuant to this section, location of inmates and payments therefor shall be governed by N.J.S.A. 30:8-57, 58, 59.

8. The Commissioner shall initiate such legal action as may be deemed necessary to ensure the enforcement of this section.

PUBLIC UTILITIES**(a)****BOARD OF PUBLIC UTILITIES****Certificate of Need Required
Major Electric and Gas Facilities****Proposed New Rules: N.J.A.C. 14:3-11**

Authorized By: Board of Public Utilities, Gerald A. Calabrese, Secretary.

Authority: N.J.S.A. 48:2-13, 48:2-23, 48:2-24, 48:2-25 and 40:55D-19.

Interested persons may submit in writing, data, views or arguments relevant to the proposal on or before April 6, 1982. These submissions, and any inquiries about submissions and responses, should be addressed to:

Gerald A. Calabrese, Secretary
Board of Public Utilities
1100 Raymond Boulevard
Newark, New Jersey 07102

The Board of Public Utilities thereafter may adopt this proposal without further notice (see: N.J.A.C. 1:30-3.5). The adoption becomes effective upon publication in the Register of a notice of adoption.

This proposal is known as PRN 1982-90.

The agency proposal follows:

Summary

These proposed rules require New Jersey utilities to obtain a Certificate of Need from the Board of Public Utilities prior to the making of construction and capital commitments for new major gas and electric facilities, both generation and transmission. The proposed rules codify various requirements not delegated to the Board by State statute, including key issues that should be addressed before construction, such as the need for the facility, location and siting, consideration of alternate locations and strategies to meet energy demands, all costs involved, financing and rate impact upon the customer, as well as those environmental and local impact considerations within the Board's jurisdiction. A procedure is set forth for coordination with sister State agencies to establish a consolidated proceeding by operation of law or with their consent to fully review all important aspects to utility construction. In this regard, the coordinate jurisdiction of the New Jersey Department of Energy with respect to siting, the New Jersey Department of Environmental Protection, the Pinelands Commission and the Coastal Area Review Board is specifically recognized. It is intended to establish a flexible procedure to review all relevant matters at the earliest possible time in an efficient manner, without establishing onerous requirements which would unduly delay facilities shown necessary to provide utility service.

Social Impact

Rules will help protect the State interest and public interest by full review of the implications of major electric and gas utility construction before commitments have been made. The interest of the public utilities in providing service necessary for the public should be served, since projects shown to be necessary can then proceed with the imprimatur of State approval.

Economic Impact

Since major utility projects become reflected in rates, initial review of projects before construction should serve to avoid reflecting in rates projects deemed unnecessary to provide service and should serve to help avoid abandonment of projects before they become used and useful, with attendant costs to the utility and public. Projects that receive State approval should be considered less risky by the financial community so that necessary capital can be obtained at the most reasonable levels.

CHAPTER 3
ALL UTILITIES

SUBCHAPTER 11. CERTIFICATE OF NEED
REGULATIONS

14:3-11.1 Short title

This subchapter shall be known and may be cited as the Certificate of Need Regulations.

14:3-11.2 Purpose

The purpose of this subchapter is to establish an integrated and efficient regulatory framework by means of which the Board may determine the need for major utility facilities prior to the making of construction and capital commitments by a utility. The subchapter is intended to be applicable to all new major gas and electric facilities, both for generation and transmission, as defined herein. The subchapter is also intended to integrate, to the extent of the Board's authority, delegated by law, the major issues which have heretofore been addressed in various and separate statutory contexts and generic proceedings with respect to major utility construction, such as issues of need, location, alternate capacity options and locations, financing, environmental concerns and local and State planning considerations.

14:3-11.3 Definitions

"Board" means the Board of Public Utilities provided for in N.J.S.A. 48:2-1.

"Facility" means a plant, unit or other facility and associated facilities to be owned or operated by electric and natural gas utilities pursuant to N.J.S.A. 48:2-13:

1. An electric generating facility, or addition thereto, designed for, or capable of generating 150 megawatts of electricity or more;
2. A gas facility, or addition thereto, designed for, or capable of, producing or supplying 25,000,000 cubic feet of gas per day or more;
3. An electric transmission line and associated facilities, or an upgrading thereof, requiring new rights of way or land acquisition, with a design capacity of more than 138 kilovolts and more than 10 miles in length;
4. An intrastate natural gas pipeline with a diameter of six or more inches, extending a distance of 5,000 feet or more and utilizing pressure in an excess of 125 pounds per square inch.

"Commence to construct" shall mean any clearing of land, excavation, or other action that would adversely affect the natural environment of the site or route of a major utility facility, but does not include changes needed for temporary use of sites or routes, or uses in securing geological data, including necessary borings to ascertain foundation conditions.

(d) "Utility" means any person which is subject to Board jurisdiction and is engaged in any aspect of the production, storage, sale, delivery or furnishing of electricity or gas in any form for direct retail sale to the public.

(e) "Certificate" means the certificate of public need issued by the Board under this subchapter that is required for the construction or operation of a facility.

14:3-11.4 Delegated authority

In promulgating this subchapter, the Board relies upon the authority delegated to it by law, Title 48, New Jersey Statutes Annotated. More particularly, the statutory framework includes authority to regulate all activities of New Jersey utilities, N.J.S.A. 48:2-13; to require that safe, adequate and proper service is required in a manner that tends to conserve the environment and prevents pollution of the waters, land and air of the State, and requires public utilities to maintain their property to enable them to provide such service, N.J.S.A. 48:2-23; to fix reasonable service to be furnished, N.J.S.A. 48:2-25; to require extension of utility facilities, N.J.S.A. 48:2-27; to require permission to discontinue or curtail or abandon utility service, N.J.S.A. 48:2-24; to fix just and reasonable rates, N.J.S.A. 48:2-21; to approve financing of construction projects, N.J.S.A. 48:3-9; to approve the exercise of the power of eminent domain, N.J.S.A. 48:3-17.7; to permit utility construction where necessary even if not in conformity with local law; 40:55D-19; and to investigate on its own initiative any matter concerning any public utility, N.J.S.A. 48:2-19a.

14:3-11.5 Coordinate authority

The certificate regulations are based on the Board's delegated authority. To the extent that the certification process should include for purposes of efficient State management, issues subject to the regulatory authority of coordinate State or Federal agencies, the Board, on its own initiative, or upon application, may solicit the coordinate effort of such agencies to establish a consolidated proceeding. The Board specifically recognizes the coordinate siting authority of the New Jersey Department of Energy pursuant to N.J.S.A. 52:27F-15. The primary environmental authority of the New Jersey Department of Environmental Protection and the land use authority of the Pinelands Commission, N.J.S.A. 13:18A-1 et seq., and the Coastal Area Review Board, N.J.S.A. 13:19-1 et seq., may appropriately impact upon the certification process. If consolidation of issues under the jurisdiction of coordinate State agencies has merit, and would aid in the management process, the Board would, as provided by law, or with consent and participation of such agency, establish a joint proceeding to make the certifying process more efficient and meaningful.

14:3-11.6 Certificate of Need: General

A utility may not commence to construct a facility without first applying for and obtaining from the Board a Certificate of Public Need issued with respect to the facility. A facility, with respect to which a Certificate is issued, may not thereafter be constructed, operated or maintained except in conformity with the Certificate and any terms, conditions and modifications contained therein.

14:3-11.7 Certificate of Need: Requirements

(a) An applicant for a Certificate shall provide competent data and proofs with the Board in such form and specification as the Board may prescribe by rule or order, as to the following subject matter:

1. A description of the location of the facility and the nature of the facility to be built thereon;
2. A description of all proposed rights of way necessary to construct the proposed facility;
3. A statement as to what consideration was given to alternate sites, or alternate routes and rights of way, and the reasons in support of the proposed siting and/or route as the most suitable and reasonable;
4. An analysis of the need for the facility, including, as appropriate, load and capacity forecasts, options considered to meet forecasted demands, including conservation planning to manage demand, renewable as well as classic energy options, and the reasons in support of the proposed facility as the most feasible and reasonable construction strategy;
5. A statement as to the consideration given in arriving at the conclusion to construct the proposed facility as the most reasonable strategy, to the capacity or energy needs of the State as a whole;

6. A detailed summary of the costs of such facility, both capital and energy, over the useful life of the facility in relation to the costs of other optional construction strategies, including enhanced conservation strategies, and the costs of rendering service within the proposed facility;

7. An analysis of the proposed financing plan to support the proposed facility and the impact on customer rates to completion to service, and over the life of the facility;

8. An analysis as to the state of the art of the proposed facility and its ability to perform as planned on a reliable basis;

9. A statement as to the timetable of service, including construction, financing and regulatory planning, and contingency planning to avoid or minimize delay to service;

10. A statement as to the impact of the proposed facility on the environment and State and local planning considerations, which should include:

i. A summary as to environmental impact pursuant to N.J.S.A. 48:2-23, and a summary of local impact, both zoning and planning, as appropriate, pursuant to N.J.S.A. 40:55D-19;

ii. A summary of the status of all required local, State and Federal approvals;

iii. Any requests for incorporation in this application of other requirements to Title 48, such as zoning or planning approvals, condemnation of financing, or requests for consolidation of this certification proceeding with any of the requirements of coordinate State or Federal agencies, as permitted by law, or by consent of the coordinate authority;

11. Other reasonably noticed submissions necessary to fulfill the general purposes of this subchapter.

14:3-11.8 Waiver of compliance

For good cause shown, the Board may waive compliance with any of the provisions of this subchapter, especially if emergency conditions require an immediate need for construction of a new facility in order to protect the public interest.

14:3-11.9 Additional requirements

The Board by general rule or order, or by direction to a special applicant, may modify or expand the requirements or proofs necessary to obtain a Certificate of Need, according to the general purposes of this subchapter.

14:3-11.10 Nature of proceeding

A Certificate of Need proceeding is quasi-legislative in nature, being a Board inquiry into the appropriateness of construction of major utility facilities. The specific requirements governing contested cases as defined by N.J.S.A. 52:14B-2, shall not apply pursuant to the Board's powers to conduct investigations, N.J.S.A. 48:2-19a and to determine whether a matter is a contested case, N.J.S.A. 52:14F-7. However, such proceeding shall include adequate notice and opportunity to be heard by the public, and other participants, competent proofs directed to the application, a record of the proceeding, and appropriate findings of fact and conclusions of law by the Board in a written opinion.

14:3-11.11 Notice

Appropriate notice shall include notice of the application for a Certificate of Need to each municipality and county in which the facility is proposed to be located, as well as appropriate notice for publication in newspapers of general circulation giving sufficient and reasonable notice to all members of the public who may be affected by the application. The Board may require notice of the application or copies thereof to be filed with such other persons as the Board may deem appropriate.

14:3-11.12 Evaluation of application

Upon receipt of an application for a Certificate of Need, the Board and Board's staff shall commence an intensive study and evaluation of the proposed facility and all relevant criteria.

14:3-11.13 Conduct of proceeding

(a) The Board's Rules of Practice, N.J.A.C. 14:1, shall govern as applicable to Board investigations rather than contested cases, subject to modification for good cause.

(b) Analysis of the application may proceed by staff evaluation, by informal or formal conference, but shall include record hearings and full reasonable opportunity for the public to be heard, as determined by the Board.

(c) Participation shall be upon such terms and conditions as the Board deems reasonable and appropriate.

(d) Conferences and hearings may be presided over by the Board en banc, an individual Commissioner, or designated members of the Board's staff, or by a combination of these procedures.

14:3-11.14 Decision of the Board

The Board shall render a decision in a timely and expeditious manner upon an application for a Certificate of Need and issue a written opinion of its determinations, based upon the record, either granting or denying the application as filed, upon such terms and conditions as the Board considers reasonable and appropriate. The Board shall make specific findings of fact and conclusions of law on the relevant criteria specified in this subchapter. The provisions of N.J.A.C. 14:1-14 (Rehearing, Reargument or Reconsideration) shall apply, except as modified by the Board for good cause.

14:3-11.15 Reservation of jurisdiction

The Board shall retain jurisdiction after decision on a Certificate of Need application. The Board, for good cause, upon application on its own initiative, may modify the terms of a grant or denial of a Certificate of Need as the circumstances, submissions and proof require.

14:3-11.16 Long range plan

Each utility, contemplating the construction of a major utility facility within this State as defined in this subchapter, in the ensuing 15 years, shall furnish annually to the Board for its review, a long-range construction plan. The plan shall be submitted yearly, and shall include data in summary form to meet the criteria specified in N.J.A.C. 14:3-11.7, to the extent known, such as demand forecasts, types of facilities planned to meet needs, alternate strategies considered, costs, and coordination of the plan with overall State needs.

14:3-11.17 Five year plan

If a utility identifies a proposed facility in its plan as one on which construction is proposed to be commenced within the five year period following submission of the plan, the Board may commence examination and evaluation of the proposed facility to determine whether construction of the proposed facility is necessary. This study may be continued until such time as an application is filed for a Certificate of Need. Data submitted and evaluated under this section may be made part of the record in a Certificate of Need proceedings as appropriate, and used to support necessary findings and conclusions with respect thereto.

See 14 N.J.R. 253, this issue, for OFFICE OF ADMINISTRATIVE LAW NOTE concerning N.J.A.C. 14:3-11.10 and 11.13 of this proposed new rule.

This proposal is known as PRN 1982-86.

The agency proposal follows:

Summary

The Director of the Division of Taxation, using his rule making power, is amending N.J.A.C. 18:12A-1.6 in order to require petitioners filing appeals with county boards of taxation to submit a copy to the local municipal assessor.

Social Impact

There is no social impact regarding this rule since the rule deals with the local property tax appeal process and merely provides that petitioners to county boards of taxation submit a copy of the petition to the local tax assessor. The rule is intended to give the assessor adequate notice so that a proper defense can be prepared.

Economic Impact

The proposed amendment is intended to give local municipal assessors adequate notice so that a proper defense may be prepared, if required. This will result in some savings in time and money and may also serve to protect municipalities in reimbursement for homestead tax rebates. This will be an economic benefit to the municipality and will be an aid in protecting New Jersey State funds.

Full text of the proposal follows (additions indicated in boldface **thus**; deletions indicated in brackets [thus]).

18:12A-1.6 Petitions of appeal

(a)-(h) (No change.)

(i) A petitioner must file a copy of each petition with the **assessor and Clerk** personally or by regular mail. The Clerk shall forthwith notify the [assessor,] collector and such other municipal officials as the governing body shall direct. In case of appeal by the taxing district, a copy of the petition must be served on the record owner of the subject property and on the assessor, unless the tax collector has received written notice that the taxpayer is a person, partnership

or corporation other than the record owner, in which event a copy of the petition must also be served on the taxpayer. Where petitioner files a petition with respect to another owner's property, he shall furnish a copy of the petition to such owner in addition to all other parties.

The agency proposal follows:

Summary

The proposed amendment would exempt one and two-family dwellings, occupancies, home occupations, accessory structures and uses in the Low Density Residential Zone.

Social Impact

No social impact is anticipated. This amendment permits local regulation of one and two-family dwellings.

Economic Impact

No significant economic impact is anticipated. Applicants will be relieved of any applicable HMDC fees, but will still be required to pay all municipal fees.

The Casino Control Commission thereafter may adopt this proposal without further notice (see: N.J.A.C. 1:30-3.5). The adoption becomes effective upon publication in the Register of a notice of adoption.

This proposal is known as PRN 1982-89.

The agency proposal follows:

Summary

Senate Bill No. 3330 which was signed into law on January 11, 1982 abolished casino hotel employee licenses, and replaced them with casino hotel employee registrations effective February 15, 1982. The proposed amendment is submitted to establish a fee for these registrations. The proposed fee (\$30.00) was selected because: (1) it is affordable for the persons seeking casino hotel employee positions, and (2) it fairly represents the cost of processing registrations.

Social Impact

Since the existing regulation requires payment of a similiar fee for a Casino Hotel Employee license, no significant social impact is anticipated as a result of this amendment.

Economic Impact

Overall, the proposed amendment will result in a savings for

those persons interested in being casino hotel employees. This amendment requires a \$30.00 life time registration fee; whereas, the existing regulation requires a \$30.00 fee every three years. Adoption of the one-time registration fee will decrease future revenue collections in the Casino Control Fund. However, the cost savings associated with not processing renewal licenses, should more than offset any reduction in fee collections.

Full text of the proposal follows (additions indicated in boldface **thus**; deletions indicated in brackets [thus]).

(f) Complaints or other information concerning an imminent safety hazard or a failure to conform with applicable standards of any manufactured home manufactured, sold, leased, introduced, imported or delivered in this State may be made to the Bureau.

1. When a consumer complaint or other information indicating the possible existence of an imminent safety hazard or a failure to conform with applicable standards is received by the Bureau, the Bureau shall forward the complaint or other information to the manufacturer of the manufactured home in question.

2. When it appears from the complaint or other information that more than one manufactured home may be involved, the Bureau shall send a copy of the complaint or other information to the State Administrative Agency of the state where the manufactured home was manufactured or, if there is no such State Administrative Agency, to the Secretary of the United States Department of Housing and Urban Development (the "Secretary") and, when it appears that an imminent safety hazard or serious defect may be involved, simultaneously send a copy to the Secretary.

(g) When the Bureau is the appropriate agency to hold a hearing or presentation of views as provided for at 24 C.F.R. Sections 3282.405 and 3282.407, the Bureau shall follow the procedures set forth in 24 C.F.R. Sections 3282.152 and 3282.153, with the Bureau acting as the Secretary would otherwise act under that section. Where 24 C.F.R. Section 3282.152 requires publication of notice in the Federal Register, the Bureau shall provide equivalent notice throughout the State by publication in the New Jersey Register.

(h) Any person who is aggrieved by any determination issued by the Bureau pursuant to 24 C.F.R. Section 3282.407, or who is aggrieved by application of this section, may request and shall be granted a hearing on the matter pursuant to the Administrative Procedure Act (P.L. 1968, c.410, as amended and supplemented) before the Office of Administrative Law.

1. Such person shall file a written petition requesting such hearing, which shall set forth a brief statement of the grounds therefor, with the Hearing Coordinator of the Division of Housing, CN 804, Trenton, New Jersey 08625, within 15 days of receipt of notice of the ruling, action, notice or order complained of.

2. The final decision in each such case shall be issued by the Director of the Division of Housing.

3. Any determination of the Bureau which is not appealed to a hearing before the Office of Administrative Law as provided in (h) of this section shall be considered the final determination of the Bureau and of the Department of Community Affairs upon the expiration of the 15 day period for submission of a hearing request.

4. When a final determination by the Bureau and the Department of Community Affairs has become effective, or when notice has been given to a manufacturer of the final decision of the Director of the Division of Housing, that a defect or noncompliance exists, the manufacturer may, within 10 days of the effective date of such final determination or receipt of notice of such final decision, appeal to the Secretary.

(i) Any party in a proceeding held pursuant to 24 C.F.R. Section 3282.407, including, specifically, owners of affected

manufactured homes, states in which affected manufactured homes are located, consumer groups representing owners, manufacturers and parties with similar substantial interest, may appeal to the Secretary in writing any final determination or final decision of the Bureau or the Director of the Division of Housing which is adverse to the interest of that party. This appeal shall be made within 30 days of the effective date of the final determination by the Bureau or of notice of the final decision of the Director of the Division of Housing, as the case may be.

(j) There is hereby established a monitoring inspection fee of \$19.00 which is to be paid by manufacturers to the Bureau, for transmission to the Secretary, for each manufactured home manufactured in New Jersey.*

(k) This section shall be *[effective]* *operative* immediately upon approval of the Department as a State Administrative Agency by the Secretary of the United States Department of Housing and Urban Development.

Notice of Public Hearing

PLEASE TAKE NOTICE THAT A **public hearing** will be held on April 28, 1982, at 10:00 A.M. in the General Assembly Chamber, State House, West State Street, Trenton, New Jersey. At this public hearing, representatives of the Department of Community Affairs will hear testimony on any application recommending State sponsorship of a code change proposal. The Department will seek as much factual information as possible about each proposal change for its guidance, and that of the Code Advisory Board, in recommending code changes. The public hearing will be held in accordance with the Administrative Procedure Act: P.L. 1968, c.410 (c.52:14B-1 et seq.).

Those who wish to testify should call Michael L. Ticktin, Esq., Administrative Practice Officer, Division of Housing at (609) 292-0505 and arrange for a time to speak. Those who are unable to present their testimony or application in person at the hearing may mail it to the Bureau of Construction Code Enforcement, CN 805, Trenton, New Jersey 08625 by April 28, 1982.

INDEX OF ADOPTED RULES

This Index contains rules which have been promulgated subsequent to the most recent update of the New Jersey Administrative Code, with the exception of rules promulgated in this Register appearing in the *Table of Rules in This Issue*. The rules in this Index are listed in order of their Code citations. At the bottom of the listing for each Title is the date of the most recent Code update for that Title. Accompanying the Code citation for each rule is a brief description of the rule's contents, its Office of Administrative Law (OAL) document citation (which should be used if ordering a copy of the rule from OAL) and the Register citation for its adoption notice.

The Index of Adopted Rules will appear in the first Register of each month, complementing the Index of Proposed Rules which will appear in the second Register of each month. Together, these indices make available to a Code and Register subscriber all legally effective rules, and enable the subscriber to

keep track of all State agency rulemaking activities from the initial proposal through final promulgation.

For any rule not yet published in a Code update, the full text of the proposal notice as published in the Register, plus the full text of any changes published with the adoption notice in the Register, constitute an official copy of the promulgated rule. If the full text of either the proposed rule or any changes does not appear in the Register, it is available for a fee from:

Administrative Filings
CN301
Trenton, New Jersey 08625

To be certain that you have a copy of each proposed rule which may have been adopted but which does not yet appear in the most recent Code update, you should retain each Register beginning with July 5, 1979.

(Title 19 Subtitle K, Transmittal 2 dated July 17, 1980)

OFFICE OF ADMINISTRATIVE LAW NOTE: The following is the substance of a memorandum of inquiry sent to the Board of Public Utilities. (See 14 N.J.R. 228(a), this issue.)

Pursuant to its statutory obligation to review proposed rules (N.J.S.A. 52:14B-5(c)(1), and N.J.S.A. 52:14F-5f), and to assist and advise agencies concerning their obligations under the Administrative Procedure Act (N.J.S.A. 52:14F-5h and N.J.S.A. 52:14F-5i), the Office of Administrative Law raises the following questions with respect to the specific legal authority of the Board of Public Utilities to adopt the proposed sections N.J.A.C. 14:3-11.10 and N.J.A.C. 14:3-11.13.

In proposed sections N.J.A.C. 14:3-11.10 and N.J.A.C. 14:3-11.13, the Board delineates hearing procedures for the determination of whether a certificate of need shall be granted. The proposed rule characterizes the hearing as an "investigation", which may be conducted by a Board staff person and under Board rules, and specifically rejects any characterization of the hearing as a "contested case", which would have to be heard by an administrative law judge and would afford interested parties the opportunity for a full hearing pursuant to the Administrative Procedure Act (N.J.S.A. 52:14B-1 et seq. and N.J.S.A. 52:14F-1 et seq.).

In justifying its rejection of contested case procedures and the Administrative Procedure Act, the proposed rule states that these certificate of need hearings are "quasi-legislative in nature...". How does the Board distinguish the substantial case law which has characterized many other hearings, including Public Utilities rate-

making cases, as being both "quasi-legislative" and "contested cases" which are governed by the Administrative Procedure Act?

The Board cites its statutory investigative powers as authority for its proposed hearing procedure. How does this procedure resemble an investigation, under N.J.S.A. 48:2-19a, as opposed to an adversarial proceeding, under N.J.S.A. 52:14B-2? How do the relations of the parties in one of these proceedings differ from the relations of the parties in a rate-making contested case? How do these proceedings differ from other "certificate of need" proceedings which are conducted as contested cases, such as those from the Department of Health? Even though these proceedings are not required by statute, how can they be distinguished from other situations where a hearing is required by Constitutional right, and therefore must be conducted pursuant to the Administrative Procedure Act? Even if these proceedings are not required by operation of the Constitution to be contested case hearings, how can they be distinguished from the situations held by the Appellate Division to require contested case hearings in *In Re Orange Savings Bank*, 172 N.J. Super 275 (App. Div.), Appeal dismissed, 84 N.J. 433 (1980)?

Finally, the proposed rule cites N.J.S.A. 52:14F-7 as providing authority for the Board's determination that these proceedings are not contested cases. The language of that statutory action refers to individual cases, and clearly gives the Board the right to determine that an individual case is not part of a class of contested cases. How does the Board construe N.J.S.A. 52:14F-7 as giving it the authority to determine that a whole class of cases is not contested?

THE 31-VOLUME NEW JERSEY
ADMINISTRATIVE CODE—
THE OFFICIAL COMPILATION OF
AGENCY RULES AND REGULATIONS**

Virtually every undertaking in New Jersey is in some way affected by agency rulemaking. The standards, practices and procedures set by the State's executive departments and semiautonomous agencies operate with the full force of law.

Now, with Legislative Oversight a reality, rulemaking assumes even greater complexity. Without full knowledge of the substance of new regulations, every attorney practicing administrative law in this State is at a very real disadvantage—and so are his clients.

A subscription to New Jersey Administrative Code (31 loose-leaf volumes) includes one year of updated replacement pages, plus 24 issues of the twice-monthly New Jersey Register – the official interim supplement to the Code.
