### THE COMMISSIONER

#### Proposed 90-Day Construction Permits Over-the-Counter Processing

Jerry Fitzgerald English, Commissioner of the Department of Environmental Protection, pursuant to the authority of N.J.S.A. 13:1D-33, proposes to adopt new rules to be cited as N.J.A.C. 7:1C-1.9 concerning Ninety-Day Construction Permits, Over the Counter Processing.

The proposed rules were originally proposed in the August 9, 1979 New Jersey Register. As a result of the public comments received, and additional staff recommendations made to improve upon the over-the-counter program, several changes have been made to the proposed rule. While the Department does not consider the changes to be substantial, the Department is repropounding the rule in order to provide for additional comments prior to adoption. Additional comments are encouraged for consideration by the Department in order to make the over-the-counter program as effective as possible.

This proposal is known within the Department as DEP Docket Number 046-79-07.

Full text of the proposed new rule follows.

#### 7:1C-1.9 Over-the-counter processing

(a) As a means of expediting permit review for certain minor projects, the Department will fast process, to the extent possible, reasonable, and practical, unless emergencies dictate otherwise, minor projects in the categories of stream encroachment, sewer extensions, and waterfront development.

(b) Stream encroachment rules are:

1. The Department will provide, workload and staff permitting, a 24-hour, one-day processing service for certain "minor" stream encroachment permits (listed below). Projects must be in-house by 9:30 a.m., and may be picked up at 4:30 p.m., otherwise the permit will be mailed, or can be picked up the next day. Preapplication conferences are recommended to ensure that all necessary material will be submitted. An appointment must be made for the over-the-counter submittal, review, and permit issuance. Over-the-counter processing will be limited to one project per day per applicant.

2. The construction permit "Standard Application Form (CP-1)" must be properly completed, but it does not need to be forwarded to any county or municipal agency. (See N.J.A.C. 7:1C-1.3(c).) An Engineering Data Sheet (DWR-086) must be completed for all stream encroachment projects.

3. Minor stream encroachment projects are projects which do not adversely change the water carrying capacity of the floodway, do not increase erosion or sedimentation in the stream, and do not require substantial channel modification or relocation.

i. Minor stream encroachment projects which may be processed on an "over-the-counter" basis include, but are not limited to:

- (1) Outlet structures along one stream;
- (2) One sewer outlet diffuser;
- (3) One minor water intake facility;
- (4) Minor regrading, outside of channel but within the 100 year flood area;
- (5) Utilities that are constructed within the 100 year

flood area—limited to total length of 500 linear feet along the channel;

(6) One utility crossing of channel;

(7) Minor bank reestablishment and/or protection projects, limited to 100 linear feet (note subsection (b)3 of this section);

(8) Bridge deck replacements — note subsection (b)3, above);

(9) Farming practices (including ditches) approved by the Soil Conservation Service;

(10) Projects whose major purpose is mosquito control pursuant to N.J.S.A. 26:9-1 et seq.

(11) "Over-stream" utility crossings "attached" to an existing bridge or culvert above the underclearance or within the superstructure.

ii. Minor stream encroachment projects which will not be processed on an "over-the-counter" basis shall include:

(1) Desnagging and stream cleaning;

(2) Minor dredging projects;

(3) Dug ponds without structures;

(4) Residential footbridges;

(5) Recreation and habitat management structures of the Division of Fish, Game and Wildlife;

(6) Combined projects of government agencies submitted as one minor project for a calendar year will not be considered as a minor project for "over-the-counter" permit purposes.

(c) Sewer extensions rules are:

1. DEP has a 24-hour, one-day processing service for "minor" sewer extension projects. "Minor" sewer extension projects must be:

i. Length of 1,000 linear feet or less;

ii. Cost of \$25,000 or less;

iii. Sewage flow per day of 12,000 gallons or less.

2. No projects with pump stations, force mains, siphons, gallage transfers, or holding tanks will be processed over-the-counter. Projects cannot be located in areas under sewer ban, administrative orders, or litigation.

3. Projects must be in-house by 9:30 a.m., and all administrative documents must be in proper order. Pre-application conferences are strongly recommended. Over-the-counter projects will be processed by appointment only.

4. Applicants must include in the application package proof of a prior approval, endorsement, or a letter of no objection from all required local agencies prior to filing application with the state.

5. An "engineer's report" form, available from the Bureau of Municipal Waste Management of the Division of Water Resources, must be completed and certified by a licensed New Jersey engineer and submitted with the application.

(d) Waterfront development rules are:

1. DEP has a 24-hour, one-day processing service for "minor" maintenance and/or repair or replacement of lawful existing structures. Minor maintenance and/or repair or replacement projects are those projects which:

i. Are confined to existing structures;

ii. Have been previously authorized by permit; and

iii. Where the present state of disrepair has existed for less than two years.

2. Applications shall be accompanied by:

## ENVIRONMENTAL PROTECTION THE COMMISSIONER

### Reproposed Wild and Scenic Rivers

Jerry Fitzgerald English, Commissioner of the Depart-

ment of Environmental Protection, pursuant to the authority of N.J.S.A. 13:8-45 et seq., and in accordance with the Administrative Procedure Act, N.J.S.A. 52:14B et seq., repropoases new rules to be cited as N.J.A.C. 7:38 concerning the administration and regulation of wild, scenic, recreational and developed recreational rivers.

This proposal is known within the Department as DEP Docket Number 040-80-07.

These rules establish criteria for the administration of designated river areas and establish minimum standards for the regulation of designated river areas and classifications. These rules apply to lands of the State and other public governing bodies and privately owned properties which may lie within a designated river area. Designated lands and waters may include lands immediately adjacent to rivers which have been delineated by the department as a floodway, flood fringe or flood hazard area as well as any additional lands in which the department has or acquires a fee simple interest or an easement. The rules were first proposed as "Rules Concerning the Designation and Administration of Wild, Scenic, Recreational and Developed Recreational Rivers." Public hearings were held November 29, 1978 at Stockton State College and November 30, 1978 at Parsippany High School and written comments reviewed thereafter.

Issues raised and comments received have been reviewed by a 37 member citizen task force. The rules were then proposed for adoption, pending the review of the Legislature, to be effective within 60 days of transmittal to the Legislature on a day which both houses were meeting. Copies were also transmitted to the Senate Energy and Environment Committee and the Assembly Agriculture and Environment Committee, in accordance with Sections 8.c and 8.d of the Wild and Scenic Rivers Act.

Comments were received until August 25, 1979, following an extension of the comment period. Comments received noted an error in N.J.A.C. 7:37-1.15(a)3, in which the phrase ". . . which are consistent in height and total floor area . . ." should read ". . . which are inconsistent in height and total floor area . . ." This error is noted and has been corrected.

These rules are being repropoased because the rules were not adopted within one year of publication as required by N.J.A.C. 15:15-4.11(b). Inasmuch as all rule-making requirements have been met by the Department pursuant to N.J.S.A. 13:8-52, these rules are now being repropoased for an additional comment period.

Copies of the full text of the proposal may be obtained from the party indicated below.

(b) [(c)] No person shall possess, sell or purchase, or attempt to possess, sell or purchase any hard clams with a length of less than specified in subsection [(b)] (a) of this section, except that up to three per cent of the number of clams in possession, may have a lesser shell length.

[(d) Any member of the Shell Fisheries Councils, any officer or employee of the Division of Fish, Game and Shellfisheries, or any member of the Marine Police of the Division of Marine Services is authorized and empowered to determine compliance with this regulation using a peck (one quarter bushel) dry measure as the determining factor.]

[(e) Any person who shall be guilty of violating the provisions of this regulation shall be required to appear before the Shell Fisheries Council, Atlantic Coast Section, to show cause why such person's license and/or lease should not be revoked for such period of time as the said Shell Fisheries Council shall fix.]

**Notice of Public Hearing  
Concerning FY-81 Update of the  
State/EPA Agreement**

Take notice that the Department of Environmental Protection has issued the following notice, known within the Department of Environmental Protection as DEP Docket No. 041-80-07, concerning a public hearing on the FY-81 update of the State/EPA Agreement originally signed by the Commissioner and the EPA Region II Administrator in 1979 (FY-80).

Full text of the notice follows.

The Department of Environmental Protection (DEP) will hold a public hearing in accordance with both Environmental Protection Agency (EPA) and New Jersey Public Participation policies to update the existing State/EPA Agreement (SEA) on September 9, 1980 at the Freeholder Hearing Room, Morris County Courthouse (Ann Street exit), Morristown, and reconvening on September 10, 1980 at the G-Wing, Room 202-3, Stockton State College, Pomona.

The hearing will start at 3:00 p.m. on both days, and continue until 5:30 p.m. The hearing will be reconvened at 7:00 p.m. on both evenings and continue until the end of testimony.

This update is required annually as the Agreement is a consolidated narrative used by DEP to support the following federal grant applications:

Grand total grant applications \$7,814,490\*\*\*

\*Note: Approximate as a portion of prior year funding will be carried over.

\*\*Note: FY-80 funding for four lakes which will be utilized during FY-81.

\*\*\*Note: Toxic Program grant application covered by the SEA are not covered in this hearing. Clean Water Act Section 106 - Construction Grants Program Priority List was the subject of a separate public hearing on July 14, 1980.

The SEA, with its annual updates, is an important document that establishes a plan with detailed strategies to accomplish priority objectives and provides milestones for measurement of progress, and allocates manpower and financial resources accordingly. It represents a commitment by EPA and New Jersey to work together to protect and manage the quality of the State's surface and groundwater resources.

The original SEA contained as a list of 24 priority issues which have been consolidated into eight major topics in accordance with EPA Headquarters' guidance this year. Although DEP has received some public comments on the SEA informally, we are looking for advice and comment from the public on these topics at the hearing to give us direction and to assist us in prehearing the final update document.

#### ENVIRONMENTAL ISSUES

- Toxic and Hazardous Substance Control
- Groundwater Management
- Nonpoint Source Control
- Point Source Control
- Growth Management

#### ADMINISTRATION/MANAGERIAL ISSUES

3. - 4. Recodify as (b) and (c).

#### 8:31-26.3 Employee physical exams

(a) The facility shall develop and implement written policies and procedures, approved by the Department, for employees' (including persons providing direct patient care services through contractual arrangements or written agreements) physical examinations upon employment and subsequently, including the content and frequency, to ensure that:

1. Each employee shall be given a Mantoux tuberculin skin test with five tuberculin units of purified protein derivative. New employees shall be given the Mantoux tuberculin skin test upon employment.

i. If the Mantoux tuberculin skin test reaction is less than 10 mm of induration (negative), the test shall be repeated one to three weeks later. If the second Mantoux tuberculin skin test is negative, the test shall be repeated annually for as long as the reaction to the test remains

negative and the employee is assigned to areas in the facility where he/she has direct contact with patients.

ii. If the first or second Mantoux tuberculin skin test reaction is 10 or more mm of induration (positive), a chest X-ray shall be performed and, if indicated, followed by chemoprophylaxis or therapy.

iii. The facility shall ensure that laboratory personnel shall also be in compliance with Chapter 4 of the State Sanitary Code (N.J.A.C. 8:44-1.2 et seq.).

iv. The facility shall ensure that each employee's record contains documentation of all tests performed and the results, and the results of a chest X-ray and the chemoprophylaxis or therapy, as indicated.

ii. Employees who can document seropositivity from a previous rubella screening test or who can document inoculation with rubella vaccine shall not be required to have a rubella screening test.

iii. The facility shall develop and implement policies and procedures, approved by the Department, ensuring that all seronegative female employees of child-bearing age are informed regarding rubella inoculation and pregnancy.

iv. The facility shall develop and implement policies and procedures with consultation from the medical director, and approved by the Department, to ensure that rubella vaccine is provided by the facility to all rubella seronegative employees who request rubella inoculations. In the event that the licensure standards applicable to the facility do not require a medical director, the facility shall consult with a physician regarding the development and implementation of these policies and procedures.

v. The facility shall ensure that a list is maintained including the name of each employee who is seronegative and unvaccinated, in the event that he/she is exposed to rubella and a determination is needed as to whether the employee can or cannot continue to work.

vi. Each employee who is assigned to areas in the facility where he/she may have contact with patients in their first or second trimester of pregnancy shall be rubella seropositive.

vii. If the result of the first rubella screening test is rubella seronegative, and the employee works in areas of the facility where he/she may have contact with patients in their first or second trimester of pregnancy, rubella vaccine shall be given and the rubella screening test shall be repeated in 30-60 days following the inoculation.

viii. The facility shall ensure that each employee's record contains documentation of all tests performed and the results, of inoculation with rubella vaccine, if applicable, and of information provided to seronegative female employees of child-bearing age regarding rubella inoculation and pregnancy.

Use of Dextropropoxyphene  
In Narcotic Treatment

On June 17, 1980, Joanne E. Finley, M.D., M.P.H., Commissioner of Health, pursuant to authority of N.J.S.A. 24:21-1 et seq. and in accordance with the applicable provisions of the Administrative Procedure Act, adopted a new rule to be cited as N.J.A.C. 8:65-11.7 concerning use of dextropropoxyphene in narcotic treatment.

Full text of the new rule follows.

8:65-11.7 Use of dextropropoxyphene

(a) Narcotic Treatment Programs. Under the provisions of the Narcotic Treatment Act of 1974 (Pub. L. 93-281, May 14, 1974) and the regulations of DEA and FDA, narcotic treatment programs are currently using methadone, a Schedule II narcotic drug, in detoxification and maintenance treatment. However, a smaller number of practitioners have also been using dextropropoxyphene to treat drug dependent persons.

(b) The classification of dextropropoxyphene as a narcotic drug in Schedule IV by this final order will result in practitioners currently treating persons for drug dependence with dextropropoxyphene no longer being able to do so since its status as a schedule IV narcotic drug places it under the provisions of the Narcotic Treatment Act of 1974 and the applicable DEA and FDA regulations. Since the only drug authorized to be used under the FDA

regulations (21 CFR 291) is methadone, practitioners currently using dextropropoxyphene to treat drug dependent persons must terminate such activity within 120 days of the publication of this order.

(c) Two possible alternatives available within the 120 day period are for the patients involved to obtain treatment in an existing methadone program or for the concerned practitioner to seek FDA authority to commence a methadone treatment program.

An order adopting this rule was filed and became effective on July 18, 1980 as R.1980 d.328 (Exempt, Emergency Rule).

#### Proposed Amendments Concerning Treatment of Funds in Trust Accounts or in Joint Accounts In Determining Eligibility for GA

Ann Klein, Commissioner, Department of Human Services, pursuant to authority of N.J.S.A. 44:8-111 proposes to amend N.J.A.C. 10:85-3.3 and 3.4 (General Assistance

Manual) concerning treatment of funds in trust accounts or in joint accounts in determining eligibility for GA.

Full text of the proposal follows (additions indicated in boldface thus; deletions indicated in brackets [thus]).

10:85-3.3(b)4. Demand Deposits—Funds which are available to the applicant(s) or any member(s) of the eligible unit upon demand, i.e., signature authority, are to be considered fully available for purposes of eligibility determination. This includes funds in joint accounts regardless of the source of the funds when the applicant or eligible unit member may make unrestricted withdrawals, i.e., "or" accounts. When use of funds is restricted by the need for the signature of a person(s) who is/are not a member(s) of the eligible unit, i.e., "and" account(s), a pro rata share of the funds shall be considered available unless a demonstration is made that actual ownership is in a different proportion. Such different proportion shall then be recognized. If it is demonstrated that funds in such an account are totally inaccessible, they shall not be considered. Information relating to accessibility or the lack of it must be verified.

10:85-3.4(g) Trust Funds—When a trust fund exists for a member of the eligible unit, the MWD shall determine whether or not funds are currently accessible. If accessible, the funds represent an available resource and must be considered in determining eligibility.

1. When funds in trust are not currently accessible and the trust exists at the time of application, the client must, as a condition of eligibility, make a bona fide presentation of a petition to the appropriate court for release of the funds for current and future support. The agency with the aid of counsel will assist the client if necessary.

2. When funds in trust are not currently accessible and the trust came into being during the term of the assistance case, the agency will with the aid of counsel present a petition to the appropriate court for release of funds for current and future support. The client must, as a condition of continuing eligibility, provide whatever cooperation may be necessary in the presentation of the petition.

Full text of the proposed new text follows.

#### (a) Definitions

1. The term "a paid advertisement" shall refer to advertisements which are paid for, sponsored by or may inure to the direct or indirect benefit of the licensee, and shall be identified as such unless it is apparent from the context that it is a "paid advertisement."

This disclaimer cannot be used for treatment where related services are ordinarily required.

(e) Offers of discounts shall indicate the fixed or stated range of fees against which said discount is to be made.

#### BOARD OF OPTOMETRISTS

##### Proposed Advertising Regulations

Richard Appell, O.D., President of the Board of Optometrists in the Division of Consumer Affairs in the Department of Law and Public Safety, pursuant to authority of N.J.S.A. 45:1-21 et seq., proposes to adopt new regulations to be cited as N.J.A.C. 13:38-1.9 and 1.10 concerning advertising by optometrists and related matters.

Full text of the proposal follows.

##### 13:38-1.9 General advertising provisions

(a) An optometrist may, consistent with the provisions set forth herein, advertise to the consuming public the availability for sale and offering of optometric services and ophthalmic goods or merchandise. In any advertising permitted by these regulations, an optometrist shall not use, employ, suffer, permit or condone any practice, statement or format which is false, fraudulent, misleading or deceptive. For the purpose of this regulation the term "advertising" shall mean any attempt directly or indirectly by publication dissemination, circulation or in any other way to induce a consumer to purchase or consider the purchase of optometric services or ophthalmic goods or merchandise.

(b) An optometrist may advertise by means of print or electronic media, including on premise signs, professional cards and appointment cards.

(c) An optometrist may advertise fees for services to be rendered and prices for ophthalmic goods and merchandise offered for sale provided that:

1. The advertised service, goods or merchandise is provided for not more than the advertised amount.

2. All advertised fees or prices are clearly and conspicuously displayed.

3. Where a price is set forth for any optometric or ophthalmic device including, but not limited to, contact lenses, other lenses or eyeglass frames, the advertisement shall also contain the following:

i. A statement of the total dollar amount for the advertised merchandise, said amount to include the cost of all usual and necessary services and goods related thereto, or

ii. A statement of the separate prices for the advertised merchandise and all usual and necessary services and goods related thereto. The sum total of such statement shall equal the total price to be paid for the advertised merchandise and related services and goods.

(d) For the purpose of subsection (c) of this section the term "usual and necessary services and goods" shall include at least the following: optometric examination and, where appropriate, contact lens evaluation fee, storage and sterilizing equipment (heat or cold method) and use instruction and follow-up care. Example:

1. John Doe, Optometrist	OR	John Doe, Optometrist
Designer Frames	\$35.00	Designer Frames \$ 90.00

Sterilizing Equipment	30.00	
Instruction and		
Follow-up care	25.00	
	\$180.00	

NOTE: In both examples the total price may be set forth without specifically delineating the component services and goods contained therein. However, a "total price only" advertisement shall contain and offer to the consumer all usual and necessary goods and services or else will be deemed deceptive.

(e) In the event that an advertisement contains a statement with regard to an advertiser's refund policy, such policy shall clearly and conspicuously set forth all material conditions such as relevant time periods and dollar amounts to be refunded.

(f) An advertisement offering frames or lenses shall specifically identify the type of frames or lenses being offered such as single vision, bifocal, trifocal, etc., glass, plastic or other material.

(g) An advertisement shall not directly or indirectly state or imply that the advertiser possesses professional superiority with regard to services or merchandise offered or with regard to apparatus, equipment or technology utilized by such advertiser. The use of such terms as specialist, specialty, expert or words of similar import or a listing of professional affiliation shall be deemed to indicate a claim of professional superiority.

(h) An advertisement shall not contain any statement or listing of an inactive, retired, removed or deceased optometrist or any other ocular practitioner except that for a period of not more than two years from the date of

succession to the practice of another optometrist, an optometrist may use a telephone listing of such prior optometrist together with the words "succeeded by" or "successor to."

(i) An optometrist may be listed in the classified section of any directory under the classification entitled "Optometrist," "Doctors of Optometry," or any other designation which is not misleading. Such listing shall show the address or addresses for which a valid, unrevoked, active certificate has been issued to practice optometry in this State.

(j) It shall be an unlawful advertising practice for an optometrist licensed by the New Jersey Board of Optometrist to:

1. Use or employ any advertisement containing colored, flashing or neon lights.

Such copies or tapes shall be made available on request by the Board or its designee.

7. Fail to substantiate the truthfulness or accuracy of any assertion or representation set forth in an advertisement.

8. Optometric practice under assumed names and disclosure of practitioner names

(k) Except as may be authorized by the Professional Service Corporation Act, N.J.S.A. 14A:17-1 et seq., a licensed optometrist shall not practice under a name other than his own.

(l) A licensed optometrist who is also an officer of a professional service corporation which renders optometric services or sells ophthalmic merchandise shall:

1. In all advertising placed by such corporation cause to be conspicuously disclosed the names of all corporate officers who are licensed to practice optometry within this State.

2. Cause the names of all optometrists who render optometric services in connection with such corporation to be displayed in a conspicuous place at the entrance to the premises from which optometric services are rendered.

File with the Board of Optometrists by March 31 of each year a copy of that report required to be filed pursuant to N.J.S.A. 14A:17-15 showing the names and post office addresses of all shareholders, directors, and officers of such corporation. In addition thereto, the report shall include the names and addresses of all licensed optometrists employed by the corporation.

(m) It shall be the joint and several responsibility of all corporate officers holding licenses to secure compliance with subsection (n) of this section.

(n) In all advertising placed by a sole practitioner of optometry or by a partnership engaged in the practice of optometry, the name of the sole practitioner and the names of all partners shall be conspicuously set forth.

(o) A sole practitioner of optometry and all licensed optometrists offering optometric services as partners in a partnership shall cause the names of all licensees offer-

ing optometric services in connection with the sole proprietorship or the partnership to be displayed in a conspicuous place at the entrance to the premises from which optometric services are rendered.
