Psychology Databases

PsycINFO (EBSCOhost)
Produced by the American Psychological Association, the database is the preeminent source for the literature of psychology. Indexing and abstracting is provided for literature published in over 45 countries and in more than 30 languages. Publications include journal articles, dissertations, books, book chapters, reports and other document types. Coverage: 1887 to present.

PsycArticles (EBSCOhost)
A definitive source of full text, peer-reviewed articles from more than 100 scholarly and professional journals in psychology published by the American Psychological Association (APA), its imprint the Educational Publishing Foundation (EPF), and from allied organizations including the Canadian Psychological Association and the Hogrefe Publishing Group. It covers all subject areas relevant to psychological science including basic/experimental psychology, clinical psychology, developmental psychology, education and school psychology, health psychology, industrial/organizational psychology, social psychology and social processes. Coverage spans 1894 to the present.

Other Useful Databases

Academic OneFile (Gale)
A premier source for peer-reviewed, full-text articles from the world's leading journals and reference sources. Provides extensive coverage of the physical sciences, technology, medicine, social sciences, the arts, theology, literature and other subjects.

Academic Search Complete (EBSCOhost)
Supports scholarly research in key areas of academic study, providing nearly 9,100 full text periodicals, over 7,900 peer-reviewed journals, as well as reports and books. Subjects include anthropology, engineering, law, science and technology, social sciences, humanities, medical sciences, ethnic studies and much more.

CINAHL Complete (EBSCOhost)
One of the world’s most comprehensive sources of full text for nursing & allied health journals, providing indexing for more than 5,400 journals and full text for over 1,300 journals. It also includes evidence-based care sheets, continuing education modules, research instrument records and quick lessons with overviews of diseases and conditions. CINAHL Complete is a definitive research tool for all areas of nursing and allied health literature.
