Apps

The DPLA is a platform. Developers make apps that use the library's data in many different ways. Here are just a few. [App Library »](#)

DPLA Images
Rebekah Heacock Jones

DPLA Images lets you search the Digital Public Library of America, a collection of millions of cultural heritage objects from libraries, archives, and museums across the country, for images.

Primary Source Sets

DPLA Primary Source Sets are designed to help students develop their critical thinking skills by exploring topics in history, literature, and culture through primary sources. Each set includes an overview, ten to fifteen primary sources, links to related resources, and a teaching guide. These sets were created, and reviewed by the teachers on the DPLA's Education Advisory Committee. We will be adding new sets and features through Spring 2016. Read about our education projects and contact us with feedback at education@dpl.a.
