

Growing DPLA in the Garden State: The New Jersey Digitization Environment

Tom Clareson and Liz Bishoff
New Jersey DPLA Symposium
June 14, 2017

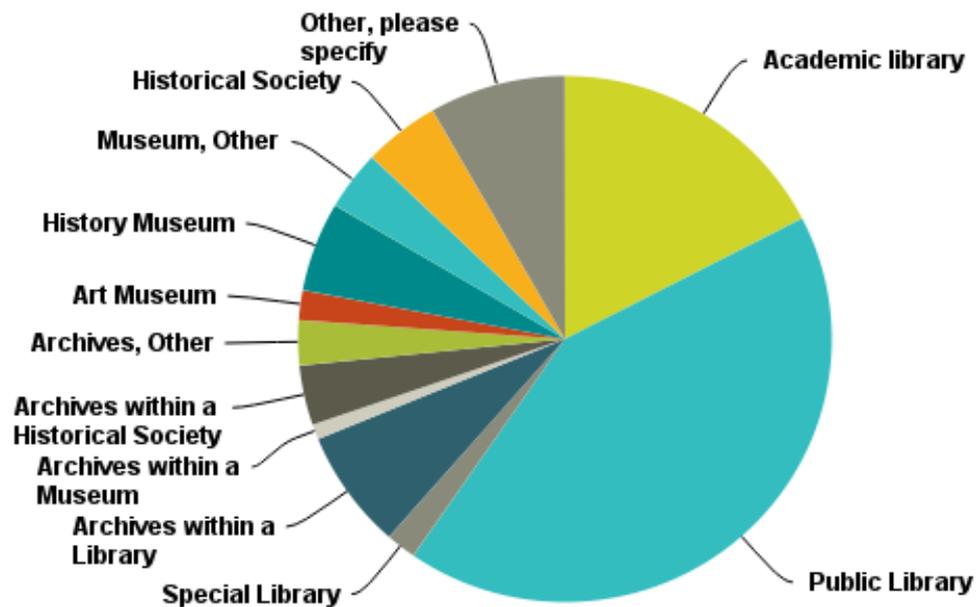

Survey Project

- ▶ Survey conducted as part of a statewide planning project for Digital Public Library of America (DPLA) participation by NJ cultural heritage organizations.
 - ▶ Survey instrument in the field mid-March to Mid-April 2017
 - ▶ 109 individual responses were received from a wide variety of cultural heritage organizations within the state.
- 

Responses from across the spectrum!

Q4 What type of cultural heritage institution do you represent?

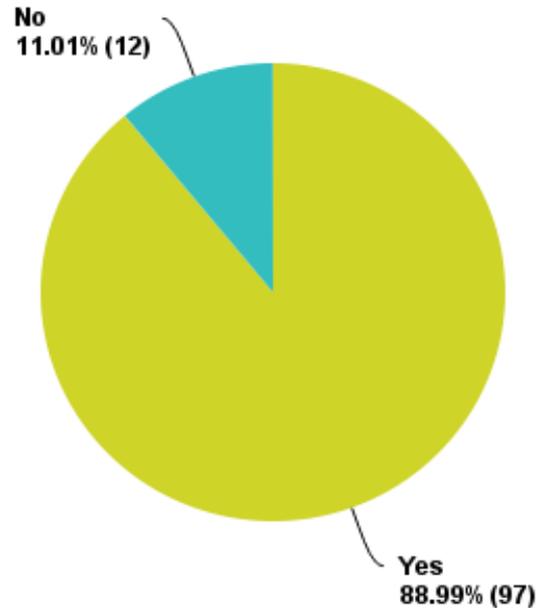

Answered: 109 Skipped: 2

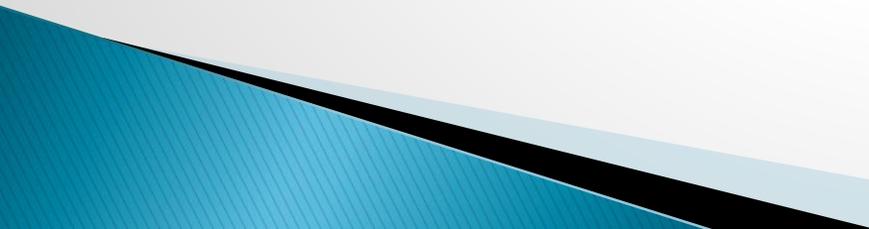

A majority with digital collections

Q6 Does your organization have digital collections?

Answered: 109 Skipped: 2

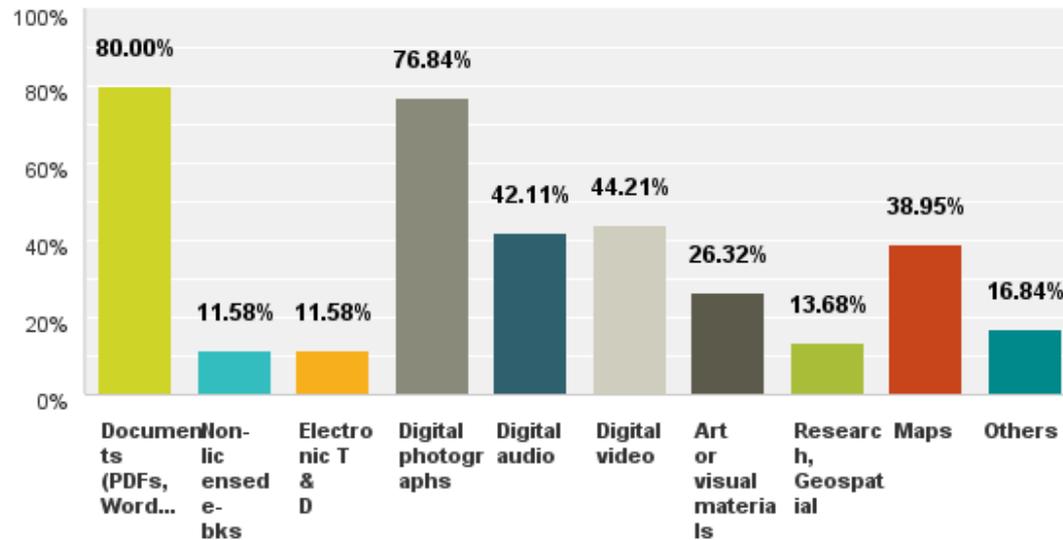

Types of Materials Digitized, or Planned for Digitization

- ▶ Photographic Prints
 - ▶ Texts, Manuscripts, and other multi-page items
 - ▶ Maps, architectural drawings, posters, and other flat works on paper
 - ▶ Newspapers on paper
 - ▶ Film (negative or glass plate negatives)
 - ▶ Microfilm/microfiche
 - ▶ Books
 - ▶ Analog audio
- 

Digital Resources in Collections

Q9 Which of the following digital resources are in your collection? These may be resources that are born digital or ones that were digitized by your organization or another organization. Select all that apply.

Answered: 95 Skipped: 16

Digital Asset Management Systems Currently Used

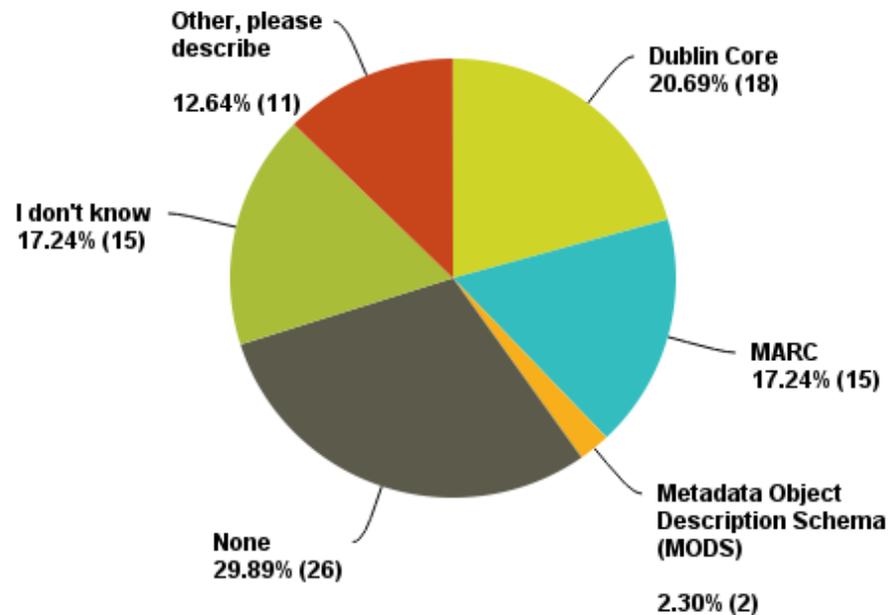

- ▶ Past Perfect: 18 responses
- ▶ Locally-developed system: 18
- ▶ None: 18
- ▶ Internet Archive: 10
- ▶ OCLC's CONTENTdm hosted or through a consortium: 7
- ▶ Don't know: 7
- ▶ Omeka: 6

- ▶ Others receiving less than five responses:
CONTENTdm locally managed, BePress Digital Commons, D-Space, Fedora, Fedora hosted, Hydra, Hathi Trust

Metadata Schema Used

Q11 What Primary metadata schema is your organization using for your digitization work?

Answered: 87 Skipped: 24

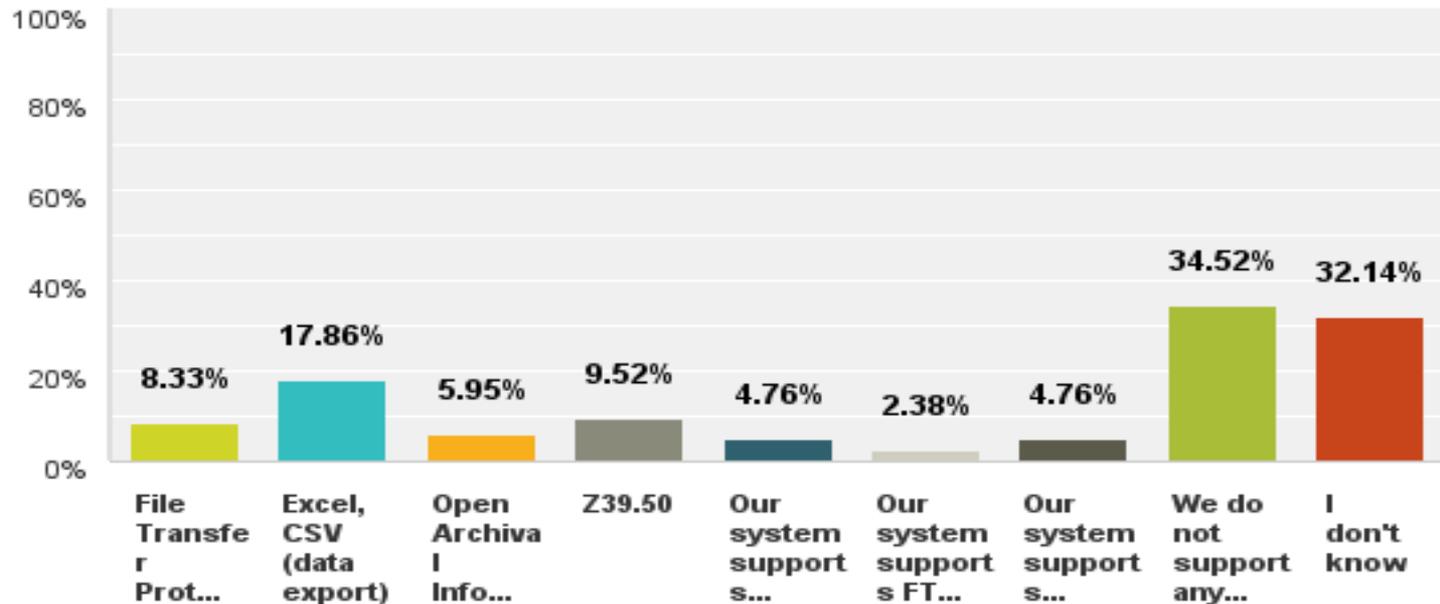

Metadata Records Available

- ▶ Zero: 34 organizations do not make any records publicly available
- ▶ 1–499 records: 8 organizations
- ▶ 500–999: 4
- ▶ 1,000–4,999: 9
- ▶ 5,000–9,999: 0
- ▶ 10,000–24,999: 5
- ▶ 25,000–100,000: 3

Metadata Harvesting Strategies

Q16 What Metadata Harvesting Strategy does your institution support?

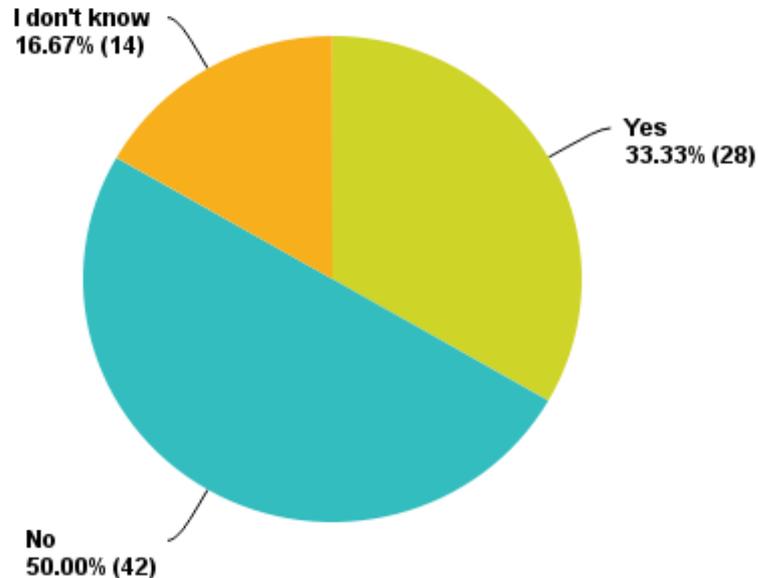

Answered: 84 Skipped: 27

Donor Agreements include right to digitize?

Q22 Does your institution have donor agreement/s that include rights to digital holdings?

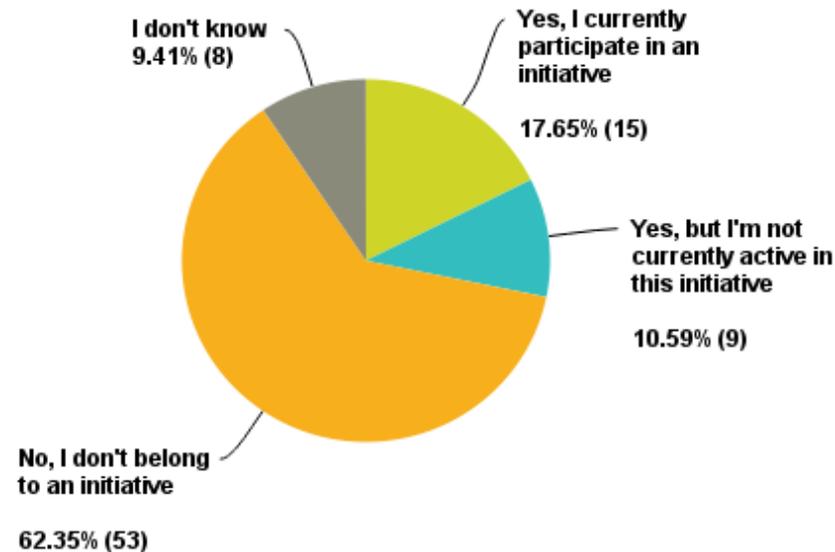

Answered: 84 Skipped: 27

Current NJ Digital Collaboration

Q23 Does your organization partner with or belong to a digital collaborative initiative, e.g. New Jersey Digital Highway?

Answered: 85 Skipped: 26

Comments from Survey

- ▶ Many responding organizations expressed interest in participating in New Jersey DPLA.
 - ▶ Training needed on digitization, metadata, harvesting, and other topics.
 - ▶ Partnering would be “timely, important, and exciting.”
- 

Moving forward on a NJ DPLA Service Hub

- ▶ 30+ organizations support OAI-PMH harvesting
- ▶ Metadata schemas can be crosswalked to the DPLA metadata application profile.
- ▶ Other survey respondents
 - Require additional work to develop cross walks
 - Enrichment of metadata
- ▶ Other recommendations
 - Develop strategy for bringing on additional organizations
 - Develop metadata best practices
 - Offer training
 - Consider expansion of digital collaborative initiatives

Thank you
