How else is EBSCO supporting Small Business & Entrepreneurs

• ELI is a leader in entrepreneurial mindset training

• The **Entrepreneurial Mindset Training Course** is based on the Ice House Entrepreneurship Program, which was developed from hundreds of in-depth interviews with non-Silicon Valley entrepreneurs (funded by CISCO Systems’ Entrepreneurship Institute and the Ewing Marion Kauffman Foundation)
Course Outcomes

In this self-paced program, participants will learn how to:

• **Recognize opportunities that others overlook.** Drawing from best practices in design thinking, they will learn how to discover opportunities that are hiding in plain sight.

• **Master the art of bootstrapping.** They will learn how cash-strapped entrepreneurs manage to identify, evaluate and transform their ideas into a sustainable success.

• **Develop a success network** that will enable them to avoid costly mistakes, reduce the learning curve and accelerate their growth.

• **Identify and overcome their self-imposed limitations** that may be holding them back.

• **Tap into a mindset** that will inspire and empower them to create a path toward a more meaningful and prosperous life, regardless of where they start.

Georgia Public Libraries - Entrepreneurial Mindset Training Course
Learn how to think like an entrepreneur

Enroll in Course for FREE

Learning how to think like an entrepreneur can change your life.

Whether you want to build a business, transform your organization, or reinvent your career, an entrepreneurial mindset provides a new perspective; one that will expose new opportunities, ignite your ambition and cultivate the confidence and the creativity, the self-reliance and the resourcefulness that are essential for anyone to adapt and thrive in today’s rapidly changing world.

Welcome to the Ice House Entrepreneurship Program.

Inspired by the life-story of Pulitzer nominee Clifton Taulbert and the life-changing influence of an "unlikely" entrepreneur, the Ice House Entrepreneurship Program exposes the underlying logic, the methods, and processes that enable everyday entrepreneurs - those who may not have big ideas, access to wealthy investors, or advanced degrees - to succeed.
Course Content

8 Learning Modules:

Module 1: The Power to Choose
Module 2: Recognizing Opportunities
Module 3: Ideas Into Action
Module 4: Pursuit of Knowledge

Module 5: Creating Wealth
Module 6: Building Your Brand
Module 7: Creating Community
Module 8: The Power of Persistence
