DATE: October 30, 2009

SUBJECT: PCSA FY2012 : 2009 Equalized Valuation and Municipal Support for
Library Service

With the publication of the Certification of the Table of Equalized Valuation for 2009 in October 2009, each library can determine the amount of municipal support necessary during 2010 to achieve particular per capita state library aid categories (\$.50 to \$1.50). The support can include dedicated tax payments in those counties where the municipality contributes to the support of a county library system, expenses incurred by the municipality in support of the public library not specifically appropriated to the library, and the budgeted appropriation.

The total municipal support during 2010 is divided by the 2009 Equalized Valuation in calculating the per capita aid to be paid in October 2011. Based on the 2009 Equalized Valuation for your municipality (\$982,375,621), the minimum municipal support needed:

To earn \$.50 per capita is	\$2,496
To earn \$.75 per capita is	\$196,475
To earn \$1.00 per capita is	\$245,594
To earn \$1.25 per capita is	\$327,458
To earn \$1.50 per capita is	\$491,188

The 1/3 mil funding level is \$1.25. The alternate minimum for municipal libraries is prior year 1/3 mill plus 15%, (\$379,502), and will earn \$1.25 per capita.

It is not possible for the State Library to estimate the apportionment of per capita aid for those libraries which are members of a county library. The additional amounts expended by the county library which are

credited to the member municipalities in their total expenses also cannot be calculated as it varies from year to year.

Library Service

With the publication of the Certification of the Table of Equalized Valuation for 2009 in October 2009, each library can determine the amount of municipal support necessary during 2010 to achieve particular per capita state library aid categories (\$.50 to \$1.50). The support can include dedicated tax payments in those counties where the municipality contributes to the support of a county library system, expenses incurred by the municipality in support of the public library not specifically appropriated to the library, and the budgeted appropriation.

The total municipal support during 2010 is divided by the 2009 Equalized Valuation in calculating the per capita aid to be paid in October 2011. Based on the 2009 Equalized Valuation for your municipality (\$4,075,840,530), the minimum municipal support needed:

To earn \$.50 per capita is	\$10,615
To earn \$.75 per capita is	\$815,168
To earn \$1.00 per capita is	\$1,018,960
To earn \$1.25 per capita is	\$1,358,612
To earn \$1.50 per capita is	\$2,037,920

The 1/3 mil funding level is \$1.25. The alternate minimum for municipal libraries is prior year 1/3 mill plus 15%, (\$1,583,356), and will earn \$1.25 per capita.

It is not possible for the State Library to estimate the apportionment of per capita aid for those libraries which are members of a county library. The additional amounts expended by the county library which are

credited to the member municipalities in their total expenses also cannot be calculated as it varies from year to year.

The support can include dedicated tax payments in those counties where the municipality contributes to the support of a county library system, expenses incurred by the municipality in support of the public library not specifically appropriated to the library, and the budgeted appropriation.

The total municipal support during 2010 is divided by the 2009 Equalized Valuation in calculating the per capita aid to be paid in October 2011. Based on the 2009 Equalized Valuation for your municipality (\$2,501,113,361), the minimum municipal support needed:

To earn \$.50 per capita is	\$10,953
To earn \$.75 per capita is	\$500,223
To earn \$1.00 per capita is	\$625,278
To earn \$1.25 per capita is	\$833,704
To earn \$1.50 per capita is	\$1,250,557

The 1/3 mil funding level is \$1.25. The alternate minimum for municipal libraries is prior year 1/3 mill plus 15%, (\$1,032,047), and will earn \$1.25 per capita.

It is not possible for the State Library to estimate the apportionment of per capita aid for those libraries which are members of a county library. The additional amounts expended by the county library which are

credited to the member municipalities in their total expenses also cannot be calculated as it varies from year to year.

With the publication of the Certification of the Table of Equalized Valuation for 2009 in October 2009, each library can determine the amount of municipal support necessary during 2010 to achieve particular per capita state library aid categories (\$.50 to \$1.50). The support can include dedicated tax payments in those counties where the municipality contributes to the support of a county library system, expenses incurred by the municipality in support of the public library not specifically appropriated to the library, and the budgeted appropriation.

The total municipal support during 2010 is divided by the 2009 Equalized Valuation in calculating the per capita aid to be paid in October 2011. Based on the 2009 Equalized Valuation for your municipality (\$6,147,680,446), the minimum municipal support needed:

To earn \$.50 per capita is	\$136,969
To earn \$.75 per capita is	\$1,229,536
To earn \$1.00 per capita is	\$1,536,920
To earn \$1.25 per capita is	\$2,049,225
To earn \$1.50 per capita is	\$3,073,840

The 1/3 mil funding level is \$1.25. The alternate minimum for municipal libraries is prior year 1/3 mill plus 15%, (\$2,529,467), and will earn \$1.25 per capita.

It is not possible for the State Library to estimate the apportionment of per capita aid for those libraries which are members of a county library. The additional amounts expended by the county library which are

credited to the member municipalities in their total expenses also cannot be calculated as it varies from year to year.

With the publication of the Certification of the Table of Equalized Valuation for 2009 in October 2009, each library can determine the amount of municipal support necessary during 2010 to achieve particular per capita state library aid categories (\$.50 to \$1.50). The support can include dedicated tax payments in those counties where the municipality contributes to the support of a county library system, expenses incurred by the municipality in support of the public library not specifically appropriated to the library, and the budgeted appropriation.

The total municipal support during 2010 is divided by the 2009 Equalized Valuation in calculating the per capita aid to be paid in October 2011. Based on the 2009 Equalized Valuation for your municipality (\$2,042,808,488), the minimum municipal support needed:

To earn \$.50 per capita is	\$38,921
To earn \$.75 per capita is	\$408,562
To earn \$1.00 per capita is	\$510,702
To earn \$1.25 per capita is	\$680,935
To earn \$1.50 per capita is	\$1,021,404

The 1/3 mil funding level is \$1.25. The alternate minimum for municipal libraries is prior year 1/3 mill plus 15%, (\$821,407), and will earn \$1.25 per capita.

It is not possible for the State Library to estimate the apportionment of per capita aid for those libraries which are members of a county library. The additional amounts expended by the county library which are

credited to the member municipalities in their total expenses also cannot be calculated as it varies from year to year.

With the publication of the Certification of the Table of Equalized Valuation for 2009 in October 2009, each library can determine the amount of municipal support necessary during 2010 to achieve particular per capita state library aid categories (\$.50 to \$1.50). The support can include dedicated tax payments in those counties where the municipality contributes to the support of a county library system, expenses incurred by the municipality in support of the public library not specifically appropriated to the library, and the budgeted appropriation.

The total municipal support during 2010 is divided by the 2009 Equalized Valuation in calculating the per capita aid to be paid in October 2011. Based on the 2009 Equalized Valuation for your municipality (\$2,167,350,419), the minimum municipal support needed:

To earn \$.50 per capita is	\$8,877
To earn \$.75 per capita is	\$433,470
To earn \$1.00 per capita is	\$541,838
To earn \$1.25 per capita is	\$722,449
To earn \$1.50 per capita is	\$1,083,675

The 1/3 mil funding level is \$1.25. The alternate minimum for municipal libraries is prior year 1/3 mill plus 15%, (\$853,922), and will earn \$1.25 per capita.

It is not possible for the State Library to estimate the apportionment of per capita aid for those libraries which are members of a county library. The additional amounts expended by the county library which are

credited to the member municipalities in their total expenses also cannot be calculated as it varies from year to year.

With the publication of the Certification of the Table of Equalized Valuation for 2009 in October 2009, each library can determine the amount of municipal support necessary during 2010 to achieve particular per capita state library aid categories (\$.50 to \$1.50). The support can include dedicated tax payments in those counties where the municipality contributes to the support of a county library system, expenses incurred by the municipality in support of the public library not specifically appropriated to the library, and the budgeted appropriation.

The total municipal support during 2010 is divided by the 2009 Equalized Valuation in calculating the per capita aid to be paid in October 2011. Based on the 2009 Equalized Valuation for your municipality (\$2,331,359,026), the minimum municipal support needed:

To earn \$.50 per capita is	
To earn \$.75 per capita is	\$466,272
To earn \$1.00 per capita is	\$582,840
To earn \$1.25 per capita is	\$777,119
To earn \$1.50 per capita is	\$1,165,680

The 1/3 mil funding level is \$1.25. The alternate minimum for municipal libraries is prior year 1/3 mill plus 15%, (\$841,893), and will earn \$1.25 per capita.

It is not possible for the State Library to estimate the apportionment of per capita aid for those libraries which are members of a county library. The additional amounts expended by the county library which are

credited to the member municipalities in their total expenses also cannot be calculated as it varies from year to year.

The total municipal support during 2010 is divided by the 2009 Equalized Valuation in calculating the per capita aid to be paid in October 2011. Based on the 2009 Equalized Valuation for your municipality (\$5,841,891,129), the minimum municipal support needed:

To earn \$.50 per capita is	\$13,710
To earn \$.75 per capita is	\$1,168,378
To earn \$1.00 per capita is	\$1,460,473
To earn \$1.25 per capita is	\$1,947,295
To earn \$1.50 per capita is	\$2,920,946

The 1/3 mil funding level is \$1.25. The alternate minimum for municipal libraries is prior year 1/3 mill plus 15%, (\$2,273,487), and will earn \$1.25 per capita.

It is not possible for the State Library to estimate the apportionment of per capita aid for those libraries which are members of a county library. The additional amounts expended by the county library which are

credited to the member municipalities in their total expenses also cannot be calculated as it varies from year to year.

SUBJECT: PCSA FY2012 : 2009 Equalized Valuation and Municipal Support for
Library Service

With the publication of the Certification of the Table of Equalized Valuation for 2009 in October 2009, each library can determine the amount of municipal support necessary during 2010 to achieve particular per capita state library aid categories (\$.50 to \$1.50). The support can include dedicated tax payments in those counties where the municipality contributes to the support of a county library system, expenses incurred by the municipality in support of the public library not specifically appropriated to the library, and the budgeted appropriation.

The total municipal support during 2010 is divided by the 2009 Equalized Valuation in calculating the per capita aid to be paid in October 2011. Based on the 2009 Equalized Valuation for your municipality (\$58,280,374), the minimum municipal support needed:

To earn \$.50 per capita is	\$720
To earn \$.75 per capita is	\$11,656
To earn \$1.00 per capita is	\$14,570
To earn \$1.25 per capita is	\$19,427
To earn \$1.50 per capita is	\$29,140

The 1/3 mil funding level is \$1.25. The alternate minimum for municipal libraries is prior year 1/3 mill plus 15%, (\$22,239), and will earn \$1.25 per capita.

It is not possible for the State Library to estimate the apportionment of per capita aid for those libraries which are members of a county library. The additional amounts expended by the county library which are

SUBJECT: PCSA FY2012 : 2009 Equalized Valuation and Municipal Support for
Library Service

With the publication of the Certification of the Table of Equalized Valuation for 2009 in October 2009, each library can determine the amount of municipal support necessary during 2010 to achieve particular per capita state library aid categories (\$.50 to \$1.50). The support can include dedicated tax payments in those counties where the municipality contributes to the support of a county library system, expenses incurred by the municipality in support of the public library not specifically appropriated to the library, and the budgeted appropriation.

The total municipal support during 2010 is divided by the 2009 Equalized Valuation in calculating the per capita aid to be paid in October 2011. Based on the 2009 Equalized Valuation for your municipality (\$1,703,242,077), the minimum municipal support needed:

To earn \$.50 per capita is	\$14,818
To earn \$.75 per capita is	\$340,648
To earn \$1.00 per capita is	\$425,811
To earn \$1.25 per capita is	\$567,747
To earn \$1.50 per capita is	\$851,621

The 1/3 mil funding level is \$1.25. The alternate minimum for municipal libraries is prior year 1/3 mill plus 15%, (\$664,505), and will earn \$1.25 per capita.

It is not possible for the State Library to estimate the apportionment of per capita aid for those libraries which are members of a county library. The additional amounts expended by the county library which are

credited to the member municipalities in their total expenses also cannot be calculated as it varies from year to year.

SUBJECT: PCSA FY2012 : 2009 Equalized Valuation and Municipal Support for
Library Service

With the publication of the Certification of the Table of Equalized Valuation for 2009 in October 2009, each library can determine the amount of municipal support necessary during 2010 to achieve particular per capita state library aid categories (\$.50 to \$1.50). The support can include dedicated tax payments in those counties where the municipality contributes to the support of a county library system, expenses incurred by the municipality in support of the public library not specifically appropriated to the library, and the budgeted appropriation.

The total municipal support during 2010 is divided by the 2009 Equalized Valuation in calculating the per capita aid to be paid in October 2011. Based on the 2009 Equalized Valuation for your municipality (\$858,177,514), the minimum municipal support needed:

To earn \$.50 per capita is	\$6,527
To earn \$.75 per capita is	\$171,636
To earn \$1.00 per capita is	\$214,544
To earn \$1.25 per capita is	\$286,059
To earn \$1.50 per capita is	\$429,089

The 1/3 mil funding level is \$1.25. The alternate minimum for municipal libraries is prior year 1/3 mill plus 15%, (\$322,927), and will earn \$1.25 per capita.

It is not possible for the State Library to estimate the apportionment of per capita aid for those libraries which are members of a county library. The additional amounts expended by the county library which are

credited to the member municipalities in their total expenses also cannot be calculated as it varies from year to year.

With the publication of the Certification of the Table of Equalized Valuation for 2009 in October 2009, each library can determine the amount of municipal support necessary during 2010 to achieve particular per capita state library aid categories (\$.50 to \$1.50). The support can include dedicated tax payments in those counties where the municipality contributes to the support of a county library system, expenses incurred by the municipality in support of the public library not specifically appropriated to the library, and the budgeted appropriation.

The total municipal support during 2010 is divided by the 2009 Equalized Valuation in calculating the per capita aid to be paid in October 2011. Based on the 2009 Equalized Valuation for your municipality (\$35,350,544), the minimum municipal support needed:

To earn \$.50 per capita is	\$176
To earn \$.75 per capita is	\$7,070
To earn \$1.00 per capita is	\$8,838
To earn \$1.25 per capita is	\$11,784
To earn \$1.50 per capita is	\$17,675

The 1/3 mil funding level is \$1.25. The alternate minimum for municipal libraries is prior year 1/3 mill plus 15%, (\$15,480), and will earn \$1.25 per capita.

It is not possible for the State Library to estimate the apportionment of per capita aid for those libraries which are members of a county library. The additional amounts expended by the county library which are

credited to the member municipalities in their total expenses also cannot be calculated as it varies from year to year.

SUBJECT: PCSA FY2012 : 2009 Equalized Valuation and Municipal Support for
Library Service

With the publication of the Certification of the Table of Equalized Valuation for 2009 in October 2009, each library can determine the amount of municipal support necessary during 2010 to achieve particular per capita state library aid categories (\$.50 to \$1.50). The support can include dedicated tax payments in those counties where the municipality contributes to the support of a county library system, expenses incurred by the municipality in support of the public library not specifically appropriated to the library, and the budgeted appropriation.

The total municipal support during 2010 is divided by the 2009 Equalized Valuation in calculating the per capita aid to be paid in October 2011. Based on the 2009 Equalized Valuation for your municipality (\$931,834,932), the minimum municipal support needed:

To earn \$.50 per capita is	\$3,505
To earn \$.75 per capita is	\$186,367
To earn \$1.00 per capita is	\$232,959
To earn \$1.25 per capita is	\$310,611
To earn \$1.50 per capita is	\$465,917

The 1/3 mil funding level is \$1.25. The alternate minimum for municipal libraries is prior year 1/3 mill plus 15%, (\$356,629), and will earn \$1.25 per capita.

It is not possible for the State Library to estimate the apportionment of per capita aid for those libraries which are members of a county library. The additional amounts expended by the county library which are

credited to the member municipalities in their total expenses also cannot be calculated as it varies from year to year.

SUBJECT: PCSA FY2012 : 2009 Equalized Valuation and Municipal Support for
Library Service

With the publication of the Certification of the Table of Equalized Valuation for 2009 in October 2009, each library can determine the amount of municipal support necessary during 2010 to achieve particular per capita state library aid categories (\$.50 to \$1.50). The support can include dedicated tax payments in those counties where the municipality contributes to the support of a county library system, expenses incurred by the municipality in support of the public library not specifically appropriated to the library, and the budgeted appropriation.

The total municipal support during 2010 is divided by the 2009 Equalized Valuation in calculating the per capita aid to be paid in October 2011. Based on the 2009 Equalized Valuation for your municipality (\$276,248,223), the minimum municipal support needed:

To earn \$.50 per capita is	\$328
To earn \$.75 per capita is	\$55,250
To earn \$1.00 per capita is	\$69,062
To earn \$1.25 per capita is	\$92,083
To earn \$1.50 per capita is	\$138,124

The 1/3 mil funding level is \$1.25. The alternate minimum for municipal libraries is prior year 1/3 mill plus 15%, (\$122,894), and will earn \$1.25 per capita.

It is not possible for the State Library to estimate the apportionment of per capita aid for those libraries which are members of a county library. The additional amounts expended by the county library which are

credited to the member municipalities in their total expenses also cannot be calculated as it varies from year to year.

SUBJECT: PCSA FY2012 : 2009 Equalized Valuation and Municipal Support for
Library Service

With the publication of the Certification of the Table of Equalized Valuation for 2009 in October 2009, each library can determine the amount of municipal support necessary during 2010 to achieve particular per capita state library aid categories (\$.50 to \$1.50). The support can include dedicated tax payments in those counties where the municipality contributes to the support of a county library system, expenses incurred by the municipality in support of the public library not specifically appropriated to the library, and the budgeted appropriation.

The total municipal support during 2010 is divided by the 2009 Equalized Valuation in calculating the per capita aid to be paid in October 2011. Based on the 2009 Equalized Valuation for your municipality (\$125,902,926), the minimum municipal support needed:

To earn \$.50 per capita is	\$261
To earn \$.75 per capita is	\$25,181
To earn \$1.00 per capita is	\$31,476
To earn \$1.25 per capita is	\$41,968
To earn \$1.50 per capita is	\$62,951

The 1/3 mil funding level is \$1.25. The alternate minimum for municipal libraries is prior year 1/3 mill plus 15%, (\$48,173), and will earn \$1.25 per capita.

It is not possible for the State Library to estimate the apportionment of per capita aid for those libraries which are members of a county library. The additional amounts expended by the county library which are

credited to the member municipalities in their total expenses also cannot be calculated as it varies from year to year.

Library Service

With the publication of the Certification of the Table of Equalized Valuation for 2009 in October 2009, each library can determine the amount of municipal support necessary during 2010 to achieve particular per capita state library aid categories (\$.50 to \$1.50). The support can include dedicated tax payments in those counties where the municipality contributes to the support of a county library system, expenses incurred by the municipality in support of the public library not specifically appropriated to the library, and the budgeted appropriation.

The total municipal support during 2010 is divided by the 2009 Equalized Valuation in calculating the per capita aid to be paid in October 2011. Based on the 2009 Equalized Valuation for your municipality (\$7,388,307,671), the minimum municipal support needed:

To earn \$.50 per capita is	\$252,447
To earn \$.75 per capita is	\$1,477,662
To earn \$1.00 per capita is	\$1,847,077
To earn \$1.25 per capita is	\$2,462,767
To earn \$1.50 per capita is	\$3,694,154

The 1/3 mil funding level is \$1.25. The alternate minimum for municipal libraries is prior year 1/3 mill plus 15%, (\$2,833,291), and will earn \$1.25 per capita.

It is not possible for the State Library to estimate the apportionment of per capita aid for those libraries which are members of a county library. The additional amounts expended by the county library which are

credited to the member municipalities in their total expenses also cannot be calculated as it varies from year to year.

With the publication of the Certification of the Table of Equalized Valuation for 2009 in October 2009, each library can determine the amount of municipal support necessary during 2010 to achieve particular per capita state library aid categories (\$.50 to \$1.50). The support can include dedicated tax payments in those counties where the municipality contributes to the support of a county library system, expenses incurred by the municipality in support of the public library not specifically appropriated to the library, and the budgeted appropriation.

The total municipal support during 2010 is divided by the 2009 Equalized Valuation in calculating the per capita aid to be paid in October 2011. Based on the 2009 Equalized Valuation for your municipality (\$1,232,375,743), the minimum municipal support needed:

To earn \$.50 per capita is	\$9,450
To earn \$.75 per capita is	\$246,475
To earn \$1.00 per capita is	\$308,094
To earn \$1.25 per capita is	\$410,792
To earn \$1.50 per capita is	\$616,188

The 1/3 mil funding level is \$1.25. The alternate minimum for municipal libraries is prior year 1/3 mill plus 15%, (\$460,327), and will earn \$1.25 per capita.

It is not possible for the State Library to estimate the apportionment of per capita aid for those libraries which are members of a county library. The additional amounts expended by the county library which are

credited to the member municipalities in their total expenses also cannot be calculated as it varies from year to year.

SUBJECT: PCSA FY2012 : 2009 Equalized Valuation and Municipal Support for
Library Service

With the publication of the Certification of the Table of Equalized Valuation for 2009 in October 2009, each library can determine the amount of municipal support necessary during 2010 to achieve particular per capita state library aid categories (\$.50 to \$1.50). The support can include dedicated tax payments in those counties where the municipality contributes to the support of a county library system, expenses incurred by the municipality in support of the public library not specifically appropriated to the library, and the budgeted appropriation.

The total municipal support during 2010 is divided by the 2009 Equalized Valuation in calculating the per capita aid to be paid in October 2011. Based on the 2009 Equalized Valuation for your municipality (\$693,680,422), the minimum municipal support needed:

To earn \$.50 per capita is	\$19,138
To earn \$.75 per capita is	\$138,736
To earn \$1.00 per capita is	\$173,420
To earn \$1.25 per capita is	\$231,227
To earn \$1.50 per capita is	\$346,840

The 1/3 mil funding level is \$1.25. The alternate minimum for municipal libraries is prior year 1/3 mill plus 15%, (\$281,837), and will earn \$1.25 per capita.

It is not possible for the State Library to estimate the apportionment of per capita aid for those libraries which are members of a county library. The additional amounts expended by the county library which are

credited to the member municipalities in their total expenses also cannot be calculated as it varies from year to year.

SUBJECT: PCSA FY2012 : 2009 Equalized Valuation and Municipal Support for
Library Service

With the publication of the Certification of the Table of Equalized Valuation for 2009 in October 2009, each library can determine the amount of municipal support necessary during 2010 to achieve particular per capita state library aid categories (\$.50 to \$1.50). The support can include dedicated tax payments in those counties where the municipality contributes to the support of a county library system, expenses incurred by the municipality in support of the public library not specifically appropriated to the library, and the budgeted appropriation.

The total municipal support during 2010 is divided by the 2009 Equalized Valuation in calculating the per capita aid to be paid in October 2011. Based on the 2009 Equalized Valuation for your municipality (\$878,902,817), the minimum municipal support needed:

To earn \$.50 per capita is	\$1,622
To earn \$.75 per capita is	\$175,781
To earn \$1.00 per capita is	\$219,726
To earn \$1.25 per capita is	\$292,967
To earn \$1.50 per capita is	\$439,451

The 1/3 mil funding level is \$1.25. The alternate minimum for municipal libraries is prior year 1/3 mill plus 15%, (\$351,823), and will earn \$1.25 per capita.

It is not possible for the State Library to estimate the apportionment of per capita aid for those libraries which are members of a county library. The additional amounts expended by the county library which are

credited to the member municipalities in their total expenses also cannot be calculated as it varies from year to year.

SUBJECT: PCSA FY2012 : 2009 Equalized Valuation and Municipal Support for
Library Service

With the publication of the Certification of the Table of Equalized Valuation for 2009 in October 2009, each library can determine the amount of municipal support necessary during 2010 to achieve particular per capita state library aid categories (\$.50 to \$1.50). The support can include dedicated tax payments in those counties where the municipality contributes to the support of a county library system, expenses incurred by the municipality in support of the public library not specifically appropriated to the library, and the budgeted appropriation.

The total municipal support during 2010 is divided by the 2009 Equalized Valuation in calculating the per capita aid to be paid in October 2011. Based on the 2009 Equalized Valuation for your municipality (\$696,672,185), the minimum municipal support needed:

To earn \$.50 per capita is	\$2,021
To earn \$.75 per capita is	\$139,334
To earn \$1.00 per capita is	\$174,168
To earn \$1.25 per capita is	\$232,224
To earn \$1.50 per capita is	\$348,336

The 1/3 mil funding level is \$1.25. The alternate minimum for municipal libraries is prior year 1/3 mill plus 15%, (\$272,999), and will earn \$1.25 per capita.

It is not possible for the State Library to estimate the apportionment of per capita aid for those libraries which are members of a county library. The additional amounts expended by the county library which are

credited to the member municipalities in their total expenses also cannot be calculated as it varies from year to year.

With the publication of the Certification of the Table of Equalized Valuation for 2009 in October 2009, each library can determine the amount of municipal support necessary during 2010 to achieve particular per capita state library aid categories (\$.50 to \$1.50). The support can include dedicated tax payments in those counties where the municipality contributes to the support of a county library system, expenses incurred by the municipality in support of the public library not specifically appropriated to the library, and the budgeted appropriation.

The total municipal support during 2010 is divided by the 2009 Equalized Valuation in calculating the per capita aid to be paid in October 2011. Based on the 2009 Equalized Valuation for your municipality (\$324,753,729), the minimum municipal support needed:

To earn \$.50 per capita is	\$4,233
To earn \$.75 per capita is	\$64,951
To earn \$1.00 per capita is	\$81,188
To earn \$1.25 per capita is	\$108,251
To earn \$1.50 per capita is	\$162,377

The 1/3 mil funding level is \$1.25. The alternate minimum for municipal libraries is prior year 1/3 mill plus 15%, (\$128,287), and will earn \$1.25 per capita.

It is not possible for the State Library to estimate the apportionment of per capita aid for those libraries which are members of a county library. The additional amounts expended by the county library which are

credited to the member municipalities in their total expenses also cannot be calculated as it varies from year to year.

With the publication of the Certification of the Table of Equalized Valuation for 2009 in October 2009, each library can determine the amount of municipal support necessary during 2010 to achieve particular per capita state library aid categories (\$.50 to \$1.50). The support can include dedicated tax payments in those counties where the municipality contributes to the support of a county library system, expenses incurred by the municipality in support of the public library not specifically appropriated to the library, and the budgeted appropriation.

The total municipal support during 2010 is divided by the 2009 Equalized Valuation in calculating the per capita aid to be paid in October 2011. Based on the 2009 Equalized Valuation for your municipality (\$1,496,137,148), the minimum municipal support needed:

To earn \$.50 per capita is	\$29,733
To earn \$.75 per capita is	\$299,227
To earn \$1.00 per capita is	\$374,034
To earn \$1.25 per capita is	\$498,712
To earn \$1.50 per capita is	\$748,069

The 1/3 mil funding level is \$1.25. The alternate minimum for municipal libraries is prior year 1/3 mill plus 15%, (\$575,855), and will earn \$1.25 per capita.

It is not possible for the State Library to estimate the apportionment of per capita aid for those libraries which are members of a county library. The additional amounts expended by the county library which are

credited to the member municipalities in their total expenses also cannot be calculated as it varies from year to year.

With the publication of the Certification of the Table of Equalized Valuation for 2009 in October 2009, each library can determine the amount of municipal support necessary during 2010 to achieve particular per capita state library aid categories (\$.50 to \$1.50). The support can include dedicated tax payments in those counties where the municipality contributes to the support of a county library system, expenses incurred by the municipality in support of the public library not specifically appropriated to the library, and the budgeted appropriation.

The total municipal support during 2010 is divided by the 2009 Equalized Valuation in calculating the per capita aid to be paid in October 2011. Based on the 2009 Equalized Valuation for your municipality (\$4,126,186,779), the minimum municipal support needed:

To earn \$.50 per capita is	\$43,243
To earn \$.75 per capita is	\$825,237
To earn \$1.00 per capita is	\$1,031,547
To earn \$1.25 per capita is	\$1,375,394
To earn \$1.50 per capita is	\$2,063,093

The 1/3 mil funding level is \$1.25. The alternate minimum for municipal libraries is prior year 1/3 mill plus 15%, (\$1,508,569), and will earn \$1.25 per capita.

It is not possible for the State Library to estimate the apportionment of per capita aid for those libraries which are members of a county library. The additional amounts expended by the county library which are

credited to the member municipalities in their total expenses also cannot be calculated as it varies from year to year.

With the publication of the Certification of the Table of Equalized Valuation for 2009 in October 2009, each library can determine the amount of municipal support necessary during 2010 to achieve particular per capita state library aid categories (\$.50 to \$1.50). The support can include dedicated tax payments in those counties where the municipality contributes to the support of a county library system, expenses incurred by the municipality in support of the public library not specifically appropriated to the library, and the budgeted appropriation.

The total municipal support during 2010 is divided by the 2009 Equalized Valuation in calculating the per capita aid to be paid in October 2011. Based on the 2009 Equalized Valuation for your municipality (\$2,492,512,157), the minimum municipal support needed:

To earn \$.50 per capita is	\$11,533
To earn \$.75 per capita is	\$498,502
To earn \$1.00 per capita is	\$623,128
To earn \$1.25 per capita is	\$830,837
To earn \$1.50 per capita is	\$1,246,256

The 1/3 mil funding level is \$1.25. The alternate minimum for municipal libraries is prior year 1/3 mill plus 15%, (\$1,026,908), and will earn \$1.25 per capita.

It is not possible for the State Library to estimate the apportionment of per capita aid for those libraries which are members of a county library. The additional amounts expended by the county library which are

credited to the member municipalities in their total expenses also cannot be calculated as it varies from year to year.

The support can include dedicated tax payments in those counties where the municipality contributes to the support of a county library system, expenses incurred by the municipality in support of the public library not specifically appropriated to the library, and the budgeted appropriation.

The total municipal support during 2010 is divided by the 2009 Equalized Valuation in calculating the per capita aid to be paid in October 2011. Based on the 2009 Equalized Valuation for your municipality (\$5,225,524,390), the minimum municipal support needed:

To earn \$.50 per capita is	\$87,722
To earn \$.75 per capita is	\$1,045,105
To earn \$1.00 per capita is	\$1,306,381
To earn \$1.25 per capita is	\$1,741,840
To earn \$1.50 per capita is	\$2,612,762

The 1/3 mil funding level is \$1.25. The alternate minimum for municipal libraries is prior year 1/3 mill plus 15%, (\$2,061,216), and will earn \$1.25 per capita.

It is not possible for the State Library to estimate the apportionment of per capita aid for those libraries which are members of a county library. The additional amounts expended by the county library which are

credited to the member municipalities in their total expenses also cannot be calculated as it varies from year to year.

The support can include dedicated tax payments in those counties where the municipality contributes to the support of a county library system, expenses incurred by the municipality in support of the public library not specifically appropriated to the library, and the budgeted appropriation.

The total municipal support during 2010 is divided by the 2009 Equalized Valuation in calculating the per capita aid to be paid in October 2011. Based on the 2009 Equalized Valuation for your municipality (\$773,609,622), the minimum municipal support needed:

To earn \$.50 per capita is	\$1,781
To earn \$.75 per capita is	\$154,722
To earn \$1.00 per capita is	\$193,402
To earn \$1.25 per capita is	\$257,870
To earn \$1.50 per capita is	\$386,805

The 1/3 mil funding level is \$1.25. The alternate minimum for municipal libraries is prior year 1/3 mill plus 15%, (\$316,209), and will earn \$1.25 per capita.

It is not possible for the State Library to estimate the apportionment of per capita aid for those libraries which are members of a county library. The additional amounts expended by the county library which are

credited to the member municipalities in their total expenses also cannot be calculated as it varies from year to year.

SUBJECT: PCSA FY2012 : 2009 Equalized Valuation and Municipal Support for
Library Service

With the publication of the Certification of the Table of Equalized Valuation for 2009 in October 2009, each library can determine the amount of municipal support necessary during 2010 to achieve particular per capita state library aid categories (\$.50 to \$1.50). The support can include dedicated tax payments in those counties where the municipality contributes to the support of a county library system, expenses incurred by the municipality in support of the public library not specifically appropriated to the library, and the budgeted appropriation.

The total municipal support during 2010 is divided by the 2009 Equalized Valuation in calculating the per capita aid to be paid in October 2011. Based on the 2009 Equalized Valuation for your municipality (\$3,230,947,471), the minimum municipal support needed:

To earn \$.50 per capita is	\$11,818
To earn \$.75 per capita is	\$646,189
To earn \$1.00 per capita is	\$807,737
To earn \$1.25 per capita is	\$1,076,981
To earn \$1.50 per capita is	\$1,615,474

The 1/3 mil funding level is \$1.25. The alternate minimum for municipal libraries is prior year 1/3 mill plus 15%, (\$1,227,404), and will earn \$1.25 per capita.

It is not possible for the State Library to estimate the apportionment of per capita aid for those libraries which are members of a county library. The additional amounts expended by the county library which are

credited to the member municipalities in their total expenses also cannot be calculated as it varies from year to year.

SUBJECT: PCSA FY2012 : 2009 Equalized Valuation and Municipal Support for
Library Service

With the publication of the Certification of the Table of Equalized Valuation for 2009 in October 2009, each library can determine the amount of municipal support necessary during 2010 to achieve particular per capita state library aid categories (\$.50 to \$1.50). The support can include dedicated tax payments in those counties where the municipality contributes to the support of a county library system, expenses incurred by the municipality in support of the public library not specifically appropriated to the library, and the budgeted appropriation.

The total municipal support during 2010 is divided by the 2009 Equalized Valuation in calculating the per capita aid to be paid in October 2011. Based on the 2009 Equalized Valuation for your municipality (\$513,672,333), the minimum municipal support needed:

To earn \$.50 per capita is	\$4,025
To earn \$.75 per capita is	\$102,734
To earn \$1.00 per capita is	\$128,418
To earn \$1.25 per capita is	\$171,224
To earn \$1.50 per capita is	\$256,836

The 1/3 mil funding level is \$1.25. The alternate minimum for municipal libraries is prior year 1/3 mill plus 15%, (\$205,042), and will earn \$1.25 per capita.

It is not possible for the State Library to estimate the apportionment of per capita aid for those libraries which are members of a county library. The additional amounts expended by the county library which are

credited to the member municipalities in their total expenses also cannot be calculated as it varies from year to year.

DATE: October 30, 2009

SUBJECT: PCSA FY2012 : 2009 Equalized Valuation and Municipal Support for
Library Service

With the publication of the Certification of the Table of Equalized Valuation for 2009 in October 2009, each library can determine the amount of municipal support necessary during 2010 to achieve particular per capita state library aid categories (\$.50 to \$1.50). The support can include dedicated tax payments in those counties where the municipality contributes to the support of a county library system, expenses incurred by the municipality in support of the public library not specifically appropriated to the library, and the budgeted appropriation.

The total municipal support during 2010 is divided by the 2009 Equalized Valuation in calculating the per capita aid to be paid in October 2011. Based on the 2009 Equalized Valuation for your municipality (\$4,776,631,232), the minimum municipal support needed:

To earn \$.50 per capita is	\$23,486
To earn \$.75 per capita is	\$955,326
To earn \$1.00 per capita is	\$1,194,158
To earn \$1.25 per capita is	\$1,592,209
To earn \$1.50 per capita is	\$2,388,316

The 1/3 mil funding level is \$1.25. The alternate minimum for municipal libraries is prior year 1/3 mill plus 15%, (\$1,759,456), and will earn \$1.25 per capita.

It is not possible for the State Library to estimate the apportionment of per capita aid for those libraries which are members of a county library. The additional amounts expended by the county library which are

credited to the member municipalities in their total expenses also cannot be calculated as it varies from year to year.

SUBJECT: PCSA FY2012 : 2009 Equalized Valuation and Municipal Support for
Library Service

With the publication of the Certification of the Table of Equalized Valuation for 2009 in October 2009, each library can determine the amount of municipal support necessary during 2010 to achieve particular per capita state library aid categories (\$.50 to \$1.50). The support can include dedicated tax payments in those counties where the municipality contributes to the support of a county library system, expenses incurred by the municipality in support of the public library not specifically appropriated to the library, and the budgeted appropriation.

The total municipal support during 2010 is divided by the 2009 Equalized Valuation in calculating the per capita aid to be paid in October 2011. Based on the 2009 Equalized Valuation for your municipality (\$441,964,060), the minimum municipal support needed:

To earn \$.50 per capita is	\$3,512
To earn \$.75 per capita is	\$88,393
To earn \$1.00 per capita is	\$110,491
To earn \$1.25 per capita is	\$147,321
To earn \$1.50 per capita is	\$220,982

The 1/3 mil funding level is \$1.25. The alternate minimum for municipal libraries is prior year 1/3 mill plus 15%, (\$168,884), and will earn \$1.25 per capita.

It is not possible for the State Library to estimate the apportionment of per capita aid for those libraries which are members of a county library. The additional amounts expended by the county library which are

credited to the member municipalities in their total expenses also cannot be calculated as it varies from year to year.

Library Service

With the publication of the Certification of the Table of Equalized Valuation for 2009 in October 2009, each library can determine the amount of municipal support necessary during 2010 to achieve particular per capita state library aid categories (\$.50 to \$1.50). The support can include dedicated tax payments in those counties where the municipality contributes to the support of a county library system, expenses incurred by the municipality in support of the public library not specifically appropriated to the library, and the budgeted appropriation.

The total municipal support during 2010 is divided by the 2009 Equalized Valuation in calculating the per capita aid to be paid in October 2011. Based on the 2009 Equalized Valuation for your municipality (\$2,450,702,000), the minimum municipal support needed:

To earn \$.50 per capita is	\$14,878
To earn \$.75 per capita is	\$490,140
To earn \$1.00 per capita is	\$612,676
To earn \$1.25 per capita is	\$816,900
To earn \$1.50 per capita is	\$1,225,351

The 1/3 mil funding level is \$1.25. The alternate minimum for municipal libraries is prior year 1/3 mill plus 15%, (\$926,893), and will earn \$1.25 per capita.

It is not possible for the State Library to estimate the apportionment of per capita aid for those libraries which are members of a county library. The additional amounts expended by the county library which are

credited to the member municipalities in their total expenses also cannot be calculated as it varies from year to year.

With the publication of the Certification of the Table of Equalized Valuation for 2009 in October 2009, each library can determine the amount of municipal support necessary during 2010 to achieve particular per capita state library aid categories (\$.50 to \$1.50). The support can include dedicated tax payments in those counties where the municipality contributes to the support of a county library system, expenses incurred by the municipality in support of the public library not specifically appropriated to the library, and the budgeted appropriation.

The total municipal support during 2010 is divided by the 2009 Equalized Valuation in calculating the per capita aid to be paid in October 2011. Based on the 2009 Equalized Valuation for your municipality (\$8,870,017,145), the minimum municipal support needed:

To earn \$.50 per capita is	\$338,244
To earn \$.75 per capita is	\$1,774,003
To earn \$1.00 per capita is	\$2,217,504
To earn \$1.25 per capita is	\$2,956,669
To earn \$1.50 per capita is	\$4,435,009

The 1/3 mil funding level is \$1.25. The alternate minimum for municipal libraries is prior year 1/3 mill plus 15%, (\$3,406,801), and will earn \$1.25 per capita.

It is not possible for the State Library to estimate the apportionment of per capita aid for those libraries which are members of a county library. The additional amounts expended by the county library which are

credited to the member municipalities in their total expenses also cannot be calculated as it varies from year to year.

SUBJECT: PCSA FY2012 : 2009 Equalized Valuation and Municipal Support for
Library Service

With the publication of the Certification of the Table of Equalized Valuation for 2009 in October 2009, each library can determine the amount of municipal support necessary during 2010 to achieve particular per capita state library aid categories (\$.50 to \$1.50). The support can include dedicated tax payments in those counties where the municipality contributes to the support of a county library system, expenses incurred by the municipality in support of the public library not specifically appropriated to the library, and the budgeted appropriation.

The total municipal support during 2010 is divided by the 2009 Equalized Valuation in calculating the per capita aid to be paid in October 2011. Based on the 2009 Equalized Valuation for your municipality (\$178,891,012), the minimum municipal support needed:

To earn \$.50 per capita is	
To earn \$.75 per capita is	\$35,778
To earn \$1.00 per capita is	\$44,723
To earn \$1.25 per capita is	\$59,630
To earn \$1.50 per capita is	\$89,446

The 1/3 mil funding level is \$1.25. The alternate minimum for municipal libraries is prior year 1/3 mill plus 15%, (\$68,846), and will earn \$1.25 per capita.

It is not possible for the State Library to estimate the apportionment of per capita aid for those libraries which are members of a county library. The additional amounts expended by the county library which are

credited to the member municipalities in their total expenses also cannot be calculated as it varies from year to year.

DATE: October 30, 2009

SUBJECT: PCSA FY2012 : 2009 Equalized Valuation and Municipal Support for
Library Service

With the publication of the Certification of the Table of Equalized Valuation for 2009 in October 2009, each library can determine the amount of municipal support necessary during 2010 to achieve particular per capita state library aid categories (\$.50 to \$1.50). The support can include dedicated tax payments in those counties where the municipality contributes to the support of a county library system, expenses incurred by the municipality in support of the public library not specifically appropriated to the library, and the budgeted appropriation.

The total municipal support during 2010 is divided by the 2009 Equalized Valuation in calculating the per capita aid to be paid in October 2011. Based on the 2009 Equalized Valuation for your municipality (\$9,591,497,385), the minimum municipal support needed:

To earn \$.50 per capita is	\$49,832
To earn \$.75 per capita is	\$1,918,299
To earn \$1.00 per capita is	\$2,397,874
To earn \$1.25 per capita is	\$3,197,163
To earn \$1.50 per capita is	\$4,795,749

The 1/3 mil funding level is \$1.25. The alternate minimum for municipal libraries is prior year 1/3 mill plus 15%, (\$3,635,718), and will earn \$1.25 per capita.

It is not possible for the State Library to estimate the apportionment of per capita aid for those libraries which are members of a county library. The additional amounts expended by the county library which are

credited to the member municipalities in their total expenses also cannot be calculated as it varies from year to year.

SUBJECT: PCSA FY2012 : 2009 Equalized Valuation and Municipal Support for
Library Service

With the publication of the Certification of the Table of Equalized Valuation for 2009 in October 2009, each library can determine the amount of municipal support necessary during 2010 to achieve particular per capita state library aid categories (\$.50 to \$1.50). The support can include dedicated tax payments in those counties where the municipality contributes to the support of a county library system, expenses incurred by the municipality in support of the public library not specifically appropriated to the library, and the budgeted appropriation.

The total municipal support during 2010 is divided by the 2009 Equalized Valuation in calculating the per capita aid to be paid in October 2011. Based on the 2009 Equalized Valuation for your municipality (\$883,602,953), the minimum municipal support needed:

To earn \$.50 per capita is	\$4,408
To earn \$.75 per capita is	\$176,721
To earn \$1.00 per capita is	\$220,901
To earn \$1.25 per capita is	\$294,534
To earn \$1.50 per capita is	\$441,801

The 1/3 mil funding level is \$1.25. The alternate minimum for municipal libraries is prior year 1/3 mill plus 15%, (\$344,977), and will earn \$1.25 per capita.

It is not possible for the State Library to estimate the apportionment of per capita aid for those libraries which are members of a county library. The additional amounts expended by the county library which are

credited to the member municipalities in their total expenses also cannot be calculated as it varies from year to year.

The total municipal support during 2010 is divided by the 2009 Equalized Valuation in calculating the per capita aid to be paid in October 2011. Based on the 2009 Equalized Valuation for your municipality (\$274,707,136), the minimum municipal support needed:

To earn \$.50 per capita is	\$2,897
To earn \$.75 per capita is	\$54,941
To earn \$1.00 per capita is	\$68,677
To earn \$1.25 per capita is	\$91,569
To earn \$1.50 per capita is	\$137,354

The 1/3 mil funding level is \$1.25. The alternate minimum for municipal libraries is prior year 1/3 mill plus 15%, (\$116,495), and will earn \$1.25 per capita.

It is not possible for the State Library to estimate the apportionment of per capita aid for those libraries which are members of a county library. The additional amounts expended by the county library which are

credited to the member municipalities in their total expenses also cannot be calculated as it varies from year to year.

SUBJECT: PCSA FY2012 : 2009 Equalized Valuation and Municipal Support for
Library Service

With the publication of the Certification of the Table of Equalized Valuation for 2009 in October 2009, each library can determine the amount of municipal support necessary during 2010 to achieve particular per capita state library aid categories (\$.50 to \$1.50). The support can include dedicated tax payments in those counties where the municipality contributes to the support of a county library system, expenses incurred by the municipality in support of the public library not specifically appropriated to the library, and the budgeted appropriation.

The total municipal support during 2010 is divided by the 2009 Equalized Valuation in calculating the per capita aid to be paid in October 2011. Based on the 2009 Equalized Valuation for your municipality (\$3,608,082,815), the minimum municipal support needed:

To earn \$.50 per capita is	\$37,215
To earn \$.75 per capita is	\$721,617
To earn \$1.00 per capita is	\$902,021
To earn \$1.25 per capita is	\$1,202,693
To earn \$1.50 per capita is	\$1,804,041

The 1/3 mil funding level is \$1.25. The alternate minimum for municipal libraries is prior year 1/3 mill plus 15%, (\$1,429,681), and will earn \$1.25 per capita.

It is not possible for the State Library to estimate the apportionment of per capita aid for those libraries which are members of a county library. The additional amounts expended by the county library which are

credited to the member municipalities in their total expenses also cannot be calculated as it varies from year to year.

SUBJECT: PCSA FY2012 : 2009 Equalized Valuation and Municipal Support for
Library Service

With the publication of the Certification of the Table of Equalized Valuation for 2009 in October 2009, each library can determine the amount of municipal support necessary during 2010 to achieve particular per capita state library aid categories (\$.50 to \$1.50). The support can include dedicated tax payments in those counties where the municipality contributes to the support of a county library system, expenses incurred by the municipality in support of the public library not specifically appropriated to the library, and the budgeted appropriation.

The total municipal support during 2010 is divided by the 2009 Equalized Valuation in calculating the per capita aid to be paid in October 2011. Based on the 2009 Equalized Valuation for your municipality (\$6,127,658,868), the minimum municipal support needed:

To earn \$.50 per capita is	\$213,263
To earn \$.75 per capita is	\$1,225,532
To earn \$1.00 per capita is	\$1,531,915
To earn \$1.25 per capita is	\$2,042,551
To earn \$1.50 per capita is	\$3,063,829

The 1/3 mil funding level is \$1.25. The alternate minimum for municipal libraries is prior year 1/3 mill plus 15%, (\$2,520,891), and will earn \$1.25 per capita.

It is not possible for the State Library to estimate the apportionment of per capita aid for those libraries which are members of a county library. The additional amounts expended by the county library which are

credited to the member municipalities in their total expenses also cannot be calculated as it varies from year to year.

SUBJECT: PCSA FY2012 : 2009 Equalized Valuation and Municipal Support for
Library Service

With the publication of the Certification of the Table of Equalized Valuation for 2009 in October 2009, each library can determine the amount of municipal support necessary during 2010 to achieve particular per capita state library aid categories (\$.50 to \$1.50). The support can include dedicated tax payments in those counties where the municipality contributes to the support of a county library system, expenses incurred by the municipality in support of the public library not specifically appropriated to the library, and the budgeted appropriation.

The total municipal support during 2010 is divided by the 2009 Equalized Valuation in calculating the per capita aid to be paid in October 2011. Based on the 2009 Equalized Valuation for your municipality (\$277,066,865), the minimum municipal support needed:

To earn \$.50 per capita is	\$3,238
To earn \$.75 per capita is	\$55,413
To earn \$1.00 per capita is	\$69,267
To earn \$1.25 per capita is	\$92,356
To earn \$1.50 per capita is	\$138,533

The 1/3 mil funding level is \$1.25. The alternate minimum for municipal libraries is prior year 1/3 mill plus 15%, (\$112,207), and will earn \$1.25 per capita.

It is not possible for the State Library to estimate the apportionment of per capita aid for those libraries which are members of a county library. The additional amounts expended by the county library which are

credited to the member municipalities in their total expenses also cannot be calculated as it varies from year to year.

SUBJECT: PCSA FY2012 : 2009 Equalized Valuation and Municipal Support for
Library Service

With the publication of the Certification of the Table of Equalized Valuation for 2009 in October 2009, each library can determine the amount of municipal support necessary during 2010 to achieve particular per capita state library aid categories (\$.50 to \$1.50). The support can include dedicated tax payments in those counties where the municipality contributes to the support of a county library system, expenses incurred by the municipality in support of the public library not specifically appropriated to the library, and the budgeted appropriation.

The total municipal support during 2010 is divided by the 2009 Equalized Valuation in calculating the per capita aid to be paid in October 2011. Based on the 2009 Equalized Valuation for your municipality (\$1,060,196,311), the minimum municipal support needed:

To earn \$.50 per capita is	\$20,504
To earn \$.75 per capita is	\$212,039
To earn \$1.00 per capita is	\$265,049
To earn \$1.25 per capita is	\$353,398
To earn \$1.50 per capita is	\$530,098

The 1/3 mil funding level is \$1.25. The alternate minimum for municipal libraries is prior year 1/3 mill plus 15%, (\$411,649), and will earn \$1.25 per capita.

It is not possible for the State Library to estimate the apportionment of per capita aid for those libraries which are members of a county library. The additional amounts expended by the county library which are

credited to the member municipalities in their total expenses also cannot be calculated as it varies from year to year.
