LAW LIBRARY EXPANDS ITS ONLINE DATABASE OFFERINGS

The Law Library is excited to announce that it has recently added four powerful databases to its online collection and has enhanced a fifth.

Loislaw, available at the State Library, is a comprehensive, easy-to-use database offering a wide range of legal content and supporting materials. Up-to-date cases, statutes, rules and regulations, and other primary law for all 50 states and federal jurisdictions are included along with an extensive collection of subject matter treatises covering major areas of law such as business practice, construction, employment, estate planning and personal injury. This Wolters Kluwer and Aspen Publishers product combines simple searching with the capability to search across multiple jurisdictions. Because primary law and treatises are interconnected, the user can move easily from primary materials to discussions in the treatises.

Westlaw Next not only offers nationwide access to all primary materials, but also includes the important New Jersey practice series and New Jersey legal forms. It complements our Lexis access and is available on one terminal in the law library.

The **Gale Legal Forms library** gives access to officially-approved, professionally-written forms covering hundreds of legal subjects and issues. There is an abundance of New Jersey specific federal, business, litigation, personal, real estate and general forms and a step-by-step approach to assure ease of use in finding the legal form you need. This database is available remotely to all authorized users with their library card barcode.

Bloomberg/BNA New Jersey Tax Library is an excellent source for state tax information. Along with Department of Taxation administrative decisions, technical bulletins and technical advisements, and state statutes, regulations and case law regarding taxation, it includes navigators for all types of state taxation with expert analysis. Because it is all key word searchable, you can quickly locate the material you need. The New Jersey Tax library is available on the computers in the law library.

Patron access to **Lexis** has been enhanced. Secondary New Jersey materials such as the New Jersey Institute of Continuing Legal Education treatises and materials have been added to the primary law access our patrons have always enjoyed. Also, Lexis is now available on all four patron computers in the law library, reducing the wait time.
